DARSHYA
Two-Way End-to-End Manual Test Pack

Every journey from both sides at once: the person who asks and the person who serves. Happy paths, unhappy paths, edge cases and error scenarios, role by role and linked role to role.

Website	https://darshya.online (live PRODUCTION site)
Build under test	Web main @ 10aebbad, API main @ 2775dcc8 (deployed 2 Nov 2026)
Document version	1.1, 4 Nov 2026 (v1.1 checked against the code: start/complete timing, refund rules, admin screens, chat creation and other details corrected). Companion to "Darshya Manual QA Handover Pack v1.0" (10 Oct 2026). That pack tests each page and each role alone; this pack tests the conversations between roles.
Who it is for	A manual tester working with a second person (or two browsers). One tester can do everything alone by running two different browsers side by side.
Hand back	1) This pack with every Result box ticked, 2) a Bug Report entry (same template as before) for every FAIL or PARTIAL, 3) the daily summary.
Owner contact	_____ (write it in before you hand this over)

The one sentence version
For every journey, keep BOTH sides open, do one step on one screen, then look at what changed on the other screen, in the status, the numbers, the message and the email, and record exactly what you saw.

2.3 Known limits right now (these are NOT bugs; record them as BLOCKED or "known") . . . 7

2.4 What to capture on every step that FAILS . . . 8

Part 3 The journeys (index) 9

3.1 Who talks to whom (the map behind the journeys) . . . 10

J01 Book a puja: devotee, pandit, temple manager and admin (the full life of a booking) 11

J02 Cancel and refund (devotee, admin, pandit, temple manager) 19

J03 Pandit declines, nobody accepts, admin reassigns 22

J04 Temple invites a pandit onto the roster 24

J05 Temple manager joins, admin verifies, devotee can book 26

J06 Live darshan: temple schedules a stream, devotee watches 28

J07 Astrologer consultation: devotee and astrologer 30

J08 Wellness session: instructor and student 33

J09 Gaushala donation and receipt 35

J10 Store order: devotee, store owner, admin 37

J11 Gurukul application 39

J12 Yatra inquiry 41

J13 Support ticket and contact form 43

J14 Become a provider, KYC, payout request **45**

J15 Messaging between roles **47**

J16 Sign-up, sign-in, role landing, sessions **49**

J17 Admin power actions and their effect on the user **52**

J18 Subscriptions and plans **54**

J19 Notifications and emails matrix **55**

J20 Permission and privacy matrix (what must NOT be possible) **56**

J21 Cross-cutting checks for every journey **57**

J22 Quick regression checklist (recently fixed items) **58**

J23 Account deletion and privacy requests **59**

Appendix A Status words (what each side calls the same thing) **61**

Appendix B Portal address book **62**

Appendix C Journey sign-off sheet **63**

Part 1 How to run a two-way test

1.1 What "two-way" means here

In a one-way test you sit in one role and check that role's screens. In a two-way test two roles are signed in at the same time and each step by one role must show up, correctly and in the right words, for the other. A booking is the classic example: the devotee pays, the pandit sees the request, accepts, talks to the devotee, performs the ritual, uploads the video, the devotee watches it, confirms receipt and reviews it, the pandit sees the review and is paid, and the admin can see every one of those events. Every journey in Part 3 is written this way.

1.2 The two-screen rule (very important)

- **Use two different browsers, or one normal window plus one private/incognito window.** Do NOT use two tabs of the same browser for two roles: the site keeps one sign-in cookie per browser, so signing in as a second role in the same browser replaces the first role and your test silently becomes one-way.
- Recommended pairing: Screen A = Chrome normal window, Screen B = Chrome incognito window or Firefox/Edge. For three roles (for example devotee, pandit and admin) add a third browser or a phone.
- **Stay signed in. Do not sign in and out repeatedly.** Sign-in is rate limited (about 10 attempts a minute per network, and an email is locked for 15 minutes after roughly 8 sign-ins). Keep each role signed in for the whole journey and switch by switching window.
- After an action on one screen, **refresh the other screen once** before judging it. Some pages refresh themselves; a few need a reload. If a page only shows the change after a reload and you expected it live, note it as PARTIAL (low severity) with "needs manual refresh".
- Keep a running notes line for each journey: the booking number (BS-YYYYMMDD-XXXXX), the order number, the ticket number, the donation receipt (DR-YYYYMMDD-XXXX), the exact time of each action (IST) and the screenshot file names.

1.3 Golden rules (same as the first pack, repeated because they matter most)

- **One problem = one bug entry.** Evidence or it did not happen: screenshot with the address bar visible, plus the exact error words copied as text.
- Write down **who, where, on what**: role, page address, device, browser. For two-way bugs also write **which side was wrong** (acting side or receiving side) and **what the other side showed at that moment**.
- If you cannot do a step, mark it **BLOCKED** and say why. Never leave a Result box empty. Re-try once before reporting; if it only fails the first time, still report it as "intermittent".
- **Production data safety.** Create only records that start with **QA-** (names, product titles, session titles, ticket subjects). Use fake personal details. Never use real Aadhaar, PAN, bank or card numbers. Admin and provider screens change real records: act only on QA- records.
- Go at a human pace. No scripts, no refresh loops, no load testing.

1.4 Result codes, severity, and the markers used in this pack

Marker	Meaning
PASS / FAIL / PARTIAL / BLOCKED	Same meaning as the first pack. FAIL = broken or wrong (always a Bug Report entry). PARTIAL = works with a flaw (also a bug entry, usually S3/S4). BLOCKED = could not do the step; write why.
S1 Blocker / S2 Major / S3 Minor / S4 Polish	Same scale as the first pack. Two-way additions: **S1** also covers "one role can see or change another user's private data", "money shown differently on the two sides", and "a status that never reaches the other role". **S2** covers "the other role sees the update only after many minutes or never refreshes".
★	Must-do step in that journey. If time is short, do the starred steps first.
◆ confirm	The tester should confirm the behaviour with the owner. It is how the product is expected to work but it was not verified when this pack was written. Record what you see; do not guess pass or fail.
[PAY]	Needs a successful online payment to continue. See 2.3: the live payment gateway currently rejects payments, so these steps are BLOCKED until the owner says it is fixed.
Screen A / Screen B	The two browser windows. Each step names who acts; the other window is where you check the effect.

Part 2 Set-up, accounts, known limits

2.1 Accounts you need

The owner creates and shares the passwords with you privately. Passwords are not in this document. Fill the last column on day 0. Always test the devotee as a brand-new sign-up too (J16), because a long-lived test account hides first-time problems.

Role	Account	Lands on after sign-in	Notes for two-way tests	Your account / checked?
Devotee	test.devotee@example.com or your own sign-up	/dashboard	The "asking" side of nearly every journey. Make a second devotee (your own alias) for tests that need two devotees (capacity, privacy).	
Pandit (priest)	test.priest@example.com	/priest	Needs to be on duty and, for temple journeys, on the temple's roster (J04).	
Temple manager	test.temple@example.com	/temple-portal	Linked to "Test Shri Ganesh Mandir Pune". Starts with no puja offerings: you create one in J01 setup.	
Astrologer	test.astrologer@example.com	/astrologer-portal	Availability grid and online toggle drive what devotees can book.	
Wellness instructor	test.wellness@example.com	/wellness-portal	Creates sessions; all times are IST.	
Gaushala manager	test.gaushala@example.com	/gaushala-portal	Cows, volunteers, donations.	
Store owner	test.store@example.com	/store-admin	Seller dashboard, products, orders.	
Gurukul manager	test.gurukul@example.com	/gurukul-portal (via dashboard)	Signs in as a devotee who owns a gurukul listing; after sign-in the dashboard forwards to the portal.	
Admin	test.admin@example.com	/admin	Highest risk. Act only on QA- records. Owner will change or delete this account after testing.	

2.2 Test data to use

Field	Use this
Names / titles	Always start with QA- (for example QA-Tester Sharma, QA-Rudrabhishek, QA-Diya, QA-Yoga 7am, QA-ticket-01).
Email / phone	Your own inbox alias such as yourname+qa1@gmail.com; phone 9999999999 unless a real number is needed to receive an SMS.
Sankalp (puja)	Name: QA-Tester Sharma, gotra: Kashyap, nakshatra: Rohini. Also try one Hindi value (□□□□□□□□) and one with an apostrophe.
Dates and times	All booking and session times are shown in Indian Standard Time (IST). Note your computer's time zone; if it is not IST, check that the site still shows IST.
Amounts	Donation tests: 100, 101, 1100, 2000. Prices come from the catalogue; write down the price shown on every screen and compare.
Never use	Real Aadhaar, PAN, bank, card or UPI details; other people's personal details.

2.3 Known limits right now (these are NOT bugs; record them as BLOCKED or "known")

Payments
The live payment gateway (Razorpay) currently rejects the production key, so **every online payment fails**. What you CAN and MUST test today: the payment pop-up step either opens or shows the honest failure message "We could not open the payment page right now. Nothing has been charged. Please try again in a few minutes." (donations) or an equivalent clear message, nothing is charged, the unpaid booking stays "Pending payment" and offers "Complete payment" and "Edit details".
Steps marked [PAY] cannot pass until the owner confirms the gateway works. Mark them BLOCKED (reason: payment gateway) and move on. When the owner confirms, re-run the BLOCKED steps in order; the pack is written so you can resume at the first [PAY] step.
Do not pay real money unless the owner has told you in writing to make a specific test payment.

Known limit	What you will see	What to do
Paid subscription plans	Paid plans show a disabled "Opens soon" button and a calm notice. Free plan stays active.	Test that it reads honestly (no technical words like Razorpay plan variable) and that nothing is charged.
Phone OTP sign-in	The mobile-number sign-in tab is not available until an SMS provider is connected.	Mark BLOCKED. Use email sign-in.
Emails	Several emails depend on a sender domain and mail settings the owner is still configuring (sign-up/reset emails especially). Emails may arrive late, in spam, or not at all.	For every "email is sent" step, check inbox AND spam, wait 10 minutes, then record PARTIAL/BLOCKED with the time you waited. Do not mark FAIL on a missing email alone; say "no email in 10 minutes".
Preview store products	Some store products are labelled "Not available to order" because no seller stocks them.	Do store journeys with the product you create as the store owner (J10).
Slow pages	Sign-in to dashboard takes roughly 4-7 seconds; priest pages 1-4 seconds; a page that takes more than 15 seconds or never finishes is a bug.	Note the time. Log only if it is above 15 seconds, or if it shows a blank screen or an error.
Gurukul has no own sign-in role	A gurukul manager is a devotee who owns a gurukul listing; after sign-in the dashboard sends them to /gurukul-portal.	Test that landing in J11.
Provider approval	New providers go live as soon as they submit. Admin "Approvals" is normally empty. Payout still needs KYC verified by admin.	Do not expect an approval step in provider journeys (J14).
Outreach "Run outreach now" (admin)	This sends real emails to real leads.	Do NOT click it.
Settings (admin)	Read-only screens by design.	Check they open; there is nothing to edit.
Admin cannot assign a pandit on screen	The admin Bookings list is read-only (no assign or reassign button). Assignment is done by the owner through the API.	Record the missing button once (S3) and mark the steps that need it BLOCKED.
Chat thread after a booking	Only the devotee can start a thread and a thread is created automatically on only one assignment path, so a normally accepted booking may have NO thread. The pandit's booking page still says in-app messaging is coming soon.	Check and record exactly what each side sees (J01, J15).
Timers	Offer expiry, automatic refunds (about 1 hour after cancelling) and the 72-hour SLA cancellation run on a timer of about 30 minutes.	Allow up to an hour before logging them as missing.
Notifications page	There is no notification-centre page in the web app; notices arrive as push, email or on the page.	Do not log the missing page; record whether each notice arrived.
Yatra	The yatra page collects an inquiry only. It promises no price, no payment and no reply time.	Test the inquiry journey (J12); do not expect an invoice.

2.4 What to capture on every step that FAILS

- Screenshot of BOTH screens at the moment of the failure (the acting screen and the receiving screen), address bars visible, with the clock in the frame.
- The exact words of any error message (copy as text).
- The booking / order / ticket / receipt number and the exact IST time of your action.
- Role, browser and device for each screen. Which side was wrong, and what the other side showed.

Part 3 The journeys (index)

Each journey has the same shape: a header box (roles, whether you can test it today, what to create), the happy path as a table with one expected result per side, then Unhappy paths (U), Edge cases (E) and Cross-role checks (X). Do the journeys in the order below the first time: later journeys reuse the people and records created earlier.

ID	Journey	Roles	Testable today?
J01	Book a puja: devotee, pandit, temple manager, admin (the full life of a booking)	Devotee, Pandit, Temple, Admin	Partly: set-up and the pre-payment steps now; the rest after payments work [PAY]
J02	Cancel and refund	Devotee, Admin, Pandit, Temple	After payments work [PAY]; unpaid cancel now
J03	Pandit declines, nobody accepts, admin reassigns	Devotee, Pandit, Admin	After payments work [PAY]
J04	Temple invites a pandit onto the roster	Temple, Pandit, Devotee, Admin	YES
J05	Temple manager joins, admin verifies, devotee can book	Visitor, Temple, Admin, Devotee	YES
J06	Live darshan: temple schedules a stream, devotee watches	Temple, Devotee	YES
J07	Astrologer consultation: devotee and astrologer	Devotee, Astrologer, Admin	Partly: availability now; booking [PAY]
J08	Wellness session: instructor and student	Devotee, Instructor, Admin	YES for a free session; paid enrolment [PAY]
J09	Gaushala donation and receipt	Devotee, Gaushala, Admin	Partly: form and failure path now; donation [PAY]
J10	Store order: devotee, store owner, admin	Devotee, Store owner, Admin	YES for cash on delivery; online [PAY]
J11	Gurukul application	Devotee, Gurukul manager	YES (confirm applicant-side status with owner)
J12	Yatra inquiry	Devotee, yatra desk (owner inbox)	YES
J13	Support ticket and contact form	Any role, Admin	YES
J14	Become a provider, KYC, payout request	Visitor, Provider, Admin	YES (up to payout request)
J15	Messaging between roles	Devotee with each provider	After a booking exists [PAY]; direct threads where offered
J16	Sign-up, sign-in, role landing, sessions	All	YES
J17	Admin power actions and their effect on the user	Admin, any user	YES
J18	Subscriptions and plans	Providers, Admin	YES (paid = "Opens soon")
J19	Notifications and emails matrix	All	Partly (email delivery limits)
J20	Permission and privacy matrix (what must NOT be possible)	All	YES
J21	Cross-cutting: phone layout, language, speed, sessions, back button	All	YES
J22	Quick regression checklist of recently fixed items	All	YES
J23	Account deletion and privacy requests (use a throw-away QA account)	Any user	YES

3.1 Who talks to whom (the map behind the journeys)

Devotee does this	Which role receives it	Where the receiver sees it	Journey
Books and pays for a puja	Pandit (and Temple manager of that temple); Admin oversees	Pandit: /priest Offers then Bookings. Temple: /temple-portal Bookings. Admin: /admin Bookings ("Waiting for a pandit").	J01-J03
Books an astrology consultation	Astrologer	/astrologer-portal Consultations (Upcoming)	J07
Enrols in a wellness session	Wellness instructor	/wellness-portal Sessions roster and Students	J08
Donates to a gaushala	Gaushala manager; Admin (money transfer)	/gaushala-portal Donations; /admin Gaushala disbursements	J09
Orders a store product	Store owner	/store-admin Orders	J10
Applies to a gurukul programme	Gurukul manager	/gurukul-portal Applications	J11
Sends a yatra inquiry	Yatra desk (owner inbox)	Email to the desk; the devotee sees "Inquiry received"	J12
Opens a support ticket	Admin	/admin Support	J13
Sends a message in a thread	The provider in that thread	The provider's Messages page	J15

Provider / admin does this	Which role receives it	Where they see it	Journey
Pandit accepts, starts, uploads video, completes	Devotee; Temple manager; Admin	Devotee: booking status and video. Temple: booking list. Admin: Bookings and Commissions.	J01
Temple invites a pandit	Pandit	/priest "Temple invitations" card	J04
Temple schedules a darshan stream	Devotee (public)	/darshan page of that temple	J06
Store owner moves an order to shipped / delivered	Devotee	"My orders" status	J10
Provider submits KYC / requests payout	Admin	/admin KYC and Payouts	J14
Admin verifies a temple	Devotee (can now book), Temple manager	Temple public page; booking creation succeeds	J05
Admin approves a refund / settles a payout	Devotee / Provider	Booking status and payout history	J02, J14
Admin blocks a user or changes a role	That user	Next request or page load	J17

J01 Book a puja: devotee, pandit, temple manager and admin (the full life of a booking)

Roles involved	Devotee (Screen A), Pandit (Screen B), Temple manager (Screen C), Admin (Screen D, open when you need it).
Testable today?	PARTIAL: the set-up and the steps up to the payment pop-up work today. Steps marked [PAY] are BLOCKED until the owner confirms payments work.
Purpose	Follow one booking from the first click to money paid out, checking after every step that each role sees the same facts: status, names, date and time (IST), amount, booking number.
Before you start	1) Pandit toggled ON (available) and has no other booking at the chosen time. 2) The temple is verified and has at least one puja offering (do J01-S first). 3) Devotee signed in on Screen A, pandit on Screen B, temple manager on Screen C. 4) Admin ready.
Data to create	Booking number BS-YYYYMMDD-XXXXX (write it down), temple offering "Ganesh Puja" at the QA temple, sankalp name QA-Tester Sharma. Money rules to check against: total = puja price + Rs 51 platform fee (+ Rs 150 if prasad); pandit earns 80% of the puja price; temple earns 5% of the puja price.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J01-S.01 ★	**Temple manager**	Open /temple-portal/pujas. Click "Add Puja". Choose "Ganesh Puja", price override 1000, NRI price 1500 (note: the NRI price box does not change the amount charged, check this at J01.01), max bookings per slot 2, time slots "06:00, 10:00, 18:00". Leave "Assigned priest" as "No priest yet" (or choose a roster pandit if J04 is done). Save.	The puja appears under "Pujas Offered" with price, slots and Active; the success message is clear. The slot hint explains 24-hour HH:MM and "leave blank for default slots".	Admin /admin/temples: the temple row shows "1 offering" and the "no puja offerings" warning disappears. Devotee: the temple page and /pujas list now offer this puja at this temple.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01-S.02	**Temple manager**	Try to save the same form with a slot of "25:99" and with price 0 or empty.	Clear field-level messages; nothing is saved.	Nothing new appears on the devotee or admin side.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01-S.03	**Pandit**	On /priest turn availability ON. Open /priest/profile and /priest/services; make sure at least the Ganesh Puja is listed as a service (add it if not).	Dashboard shows "Live on Darshya"; the toggle stays on after a page reload.	Admin Users shows the pandit active. Devotee puja page can list the pandit as a choice if the product offers pandit choice ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J01.01 ★	**Devotee**	Screen A: open /pujas, choose "Ganesh Puja", click Book. Choose the temple, then a date at least 2 days ahead (IST), a slot, the tier, and enter sankalp (name QA-Tester Sharma, gotra Kashyap, nakshatra Rohini).	Price in rupees before you pay: puja price 1000 + platform fee 51 = 1051 (+150 if you tick prasad delivery, India only, address needed). Steps are Temple & Date, Devotee Details, Review & Prasad, Payment; terms box must be ticked. An NRI view shows dollars as a reference but the charge is in rupees and does NOT use the 1500 NRI price.	Nothing yet on Screens B, C, D (no payment, so no booking visible to them). Admin Bookings does not list it as paid.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J01.02 ★	**Devotee**	Press the pay button. The payment pop-up should open. [PAY] Pay the owner-approved test amount.	Today: "We could not open the payment page right now. Your booking is saved and nothing has been charged. Please try again in a few minutes from your dashboard (Recent Bookings > Complete payment)." The booking is Pending payment and is held for 30 minutes. After the gateway works: success page, booking number BS-YYYYMMDD-XXXXX, status Confirmed, and a PDF receipt by email.	After success only: Temple manager sees the booking in /temple-portal/bookings with the status; Admin sees it under "Waiting for a pandit".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.03 ★	**Devotee**	[PAY] Open My Bookings (/dashboard Recent Bookings and the bookings list) and open the booking.	Booking detail shows puja, temple, date/time in IST, sankalp, amount paid, status "Confirmed" or "Waiting for a pandit", booking number, and a cancel option showing the refund rule.	Admin /admin/bookings: same number, same devotee name, same temple, same date and time, same amount.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.04	**Admin**	[PAY] Screen D: /admin/bookings, tab "Waiting for a pandit". Open the QA booking.	Row shows devotee, temple, date/time, "No pandit yet", status.	Devotee still sees "Waiting for a pandit" (not "assigned").	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.05 ★	**Pandit**	[PAY] Screen B: open /priest/offers (Open requests). The QA booking is listed for any live pandit (verified and active). If the temple offering has a pinned pandit on the roster, the booking is assigned to him automatically and appears under Bookings as Pending Accept instead. Open it.	The request shows puja, temple, date and slot; devotee details are shown only after you accept. A pandit whose profile is not complete sees no requests and, if he tries to accept, "Complete your pandit profile (onboarding) to take new bookings."	Devotee and Admin: status unchanged until the pandit acts.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.06 ★	**Pandit**	[PAY] Click Accept.	The booking moves to Bookings, tab Accepted; now devotee details and sankalp are visible; success message.	Devotee: status becomes "Priest assigned" with the pandit's name. Temple: shows priest assigned. Admin: moves from "Waiting for a pandit" to Assigned. Check whether a chat thread with the pandit exists (see the next step): in the code a thread is created automatically only on one assignment path, so this may be missing.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.07	**Devotee and Pandit**	[PAY] Open /messages (devotee) and /priest/messages (pandit) and look for a thread for this booking. If it exists exchange messages with Hindi text and one emoji. If it does not exist, write down exactly what each side shows. Note: only the devotee can start a thread, only after the booking is paid and confirmed, and the pandit's booking page still says "In-app messaging with devotees coming soon".	Thread present: message appears at once, Hindi/emoji intact. Thread missing: record as a bug of severity S2 (devotee cannot reach the pandit) and note the exact wording.	Receiver sees an unread indicator, opens the thread, sees the same text, time and sender. A "Start video call" button creates a meeting link both sides can open.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.08 ★	**Pandit**	[PAY] More than 2 hours BEFORE the scheduled time try Start, then (inside the 2 hours but before the slot) try Mark Complete.	Start is locked until 2 hours before: "You can start this puja from H:MM AM IST on D Mon YYYY, 2 hours before the scheduled time." Complete is refused before the slot starts: "This puja cannot be marked complete before it starts, at H:MM AM IST on ...". Status stays Accepted.	Devotee, Temple, Admin: status unchanged.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J01.09 ★	**Pandit**	[PAY] From 2 hours before the slot press Start Puja.	Status "In progress"; Bookings tab In Progress.	Devotee: "In progress". Temple: "in progress". Admin: In progress tab.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.10 ★	**Pandit**	[PAY] Upload the video proof (a short .mp4, .webm or .mov under 50 MB, or paste a public video link). Watch the progress.	Upload finishes and the video is playable in the pandit's own view. The status is still In progress and a "Mark Complete" button now appears (it is hidden until a video exists).	Devotee: not yet delivered; the booking page may say "Your video is being processed" until the pandit completes ◆ confirm. Admin: still In progress.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.11 ★	**Pandit**	[PAY] Press Mark Complete.	One click takes the booking to Video uploaded (it passes through Completed). Earnings cards: the amount moves from "Upcoming (after the puja)" towards "Ready to withdraw" only because the puja is performed AND proved.	Devotee: gets the notice "Puja completed / Video proof ready"; the booking shows the video player (plays, "Download Video"; the link is valid about 5 minutes then refreshes) and a confirm-receipt button. Temple: the booking shows the new status; its 5% share becomes payable. Admin: Completed or Video uploaded tab.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.12 ★	**Devotee**	[PAY] Watch the video, then confirm receipt ("Mark delivered" / confirm). ("I have received my recording"). Also try Mark Delivered as the pandit on a booking with NO video (use a second booking).	With video: status Delivered and the review box opens. Without video: refused, "Video proof is mandatory before a booking can move to delivered".	Pandit: sees Delivered. Admin: Delivered tab.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.13 ★	**Devotee**	[PAY] Leave a review: 5 stars and a short text "QA great seva"; submit. Try submitting twice.	Review saved once. A second attempt is refused: "A review has already been submitted for this booking." Stars 1 to 5, text up to 2000 characters.	Pandit: /priest/reviews shows the new review and an updated average. Admin: booking reviews are a known gap: /admin/ratings may NOT list them and cannot hide them (record what you see).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.14 ★	**Admin**	[PAY] Open /admin/commissions and /admin/revenue for this booking.	One commission line for this booking: provider earning = 80% of the puja price (800 on a 1000 puja, the Rs 51 fee is not shared); platform take shown as the percentage; status Pending until paid. Temple share is 5% of the puja price (50).	Pandit: earnings show the same provider amount to the paisa; held as Upcoming until the video is uploaded. Temple: payouts page shows 50 as Upcoming then Ready for settlement.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.15	**Pandit**	[PAY] Open /priest/payouts. If "Complete KYC" is shown, complete KYC with fake data and wait for admin verification (J14). Then press Request payout.	Before KYC: "Add your bank/UPI details in KYC before requesting a payout." or "Your KYC is pending verification. Payouts unlock once an admin verifies it." With nothing available: "No withdrawable balance." After: request is created and "Requested, awaiting payout" shows the amount. (The system also settles weekly for verified providers above Rs 100.)	Admin /admin/payouts: request appears under Pending with the same amount.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.16 ★	**Admin**	[PAY] Complete the payout request in /admin/payouts (the money is transferred outside the app first; the screen only records it). Try Reject and Fail on another request too.	Status changes to Completed; linked commission marked paid.	Pandit: "Paid out (total)" increases by the same amount; history shows Completed. Check the number matches the commission.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J01.17	**Temple manager**	[PAY] Open /temple-portal/payouts and then ask Admin to open "Temple funds".	Temple share shows Ready for settlement then Settled once admin records the transfer. Text explains the share is released after the puja is performed and its video proof is uploaded.	Admin "Temple funds": the temple has earned a puja share; admin records the transfer; the temple sees Settled.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J01.U01	**Payment gateway fails**	Devotee presses pay while the gateway is down (today's state).	Honest message (nothing charged, booking saved, finish from Recent Bookings > Complete payment); booking stays Pending payment; temple, pandit and admin do NOT see it as paid. Every failed attempt leaves one 30-minute unpaid hold (check there are no duplicates). No blank screen, no technical text.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.U02	**Devotee closes the pop-up**	Open payment, close the pop-up without paying, reopen My Bookings.	Booking is Pending payment; "Complete payment" reopens the pop-up; amount unchanged.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.U03	**Edit an unpaid booking**	On a Pending payment booking look for "Edit details" and use it to change the date and sankalp name. ◆ confirm: the code review could not find an edit route, so record whether the button exists.	If present: wizard re-opens pre-filled, old hold released, price recalculated, no duplicate booking. If absent: the only options are Complete payment or Cancel (free).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.U04	**Unpaid hold expires**	Leave a Pending payment booking untouched for 30 minutes, then book the same last slot as a second devotee.	After 30 minutes the slot counts as free for the second devotee. The first booking is NOT cancelled automatically: it stays Pending payment and can still be paid; if the slot was resold, the payment is flagged for admin review. Within 30 minutes a second identical request is refused: "You already have an unpaid booking (BS-…) for this puja at this date and time. Complete or cancel that booking...".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.U05	**Temple not verified**	Admin sets a temple to unverified (J05) then the devotee tries to book it.	Booking is refused with a clear message that the temple is not yet verified; no booking is created.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.U06	**Past date, passed slot, too far ahead**	Choose a past date, today with a slot already passed, and a date more than 365 days ahead.	"Cannot book a past date.", "The selected time slot is no longer available.", "That date is too far ahead: bookings open up to 365 days from today."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.U07	**Slot full**	Offering allows 2 bookings per slot. Book the same slot as devotee 1, devotee 2, then devotee 3.	The slot list shows "N spot(s) left"; the third attempt is refused ("No availability for the selected slot. Maximum 2 bookings allowed."); temple and admin counts match.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J01.U08	**Two devotees race for the last slot**	Two devotees (two browsers) press pay on the last slot within a few seconds.	Exactly one booking is confirmed; the other gets a clear message; no double-booking on any side.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.U09	**Pandit declines or releases**	Pandit presses Decline on a Pending request, or Release after accepting (see J03).	Booking returns to Confirmed / "Waiting for a pandit" for devotee, admin and other pandits; a pending commission is reversed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.U10	**Pandit tries a booking that is not theirs**	Pandit pastes the address of another pandit's booking (/priest/bookings/<other id>).	Not found or not allowed; no data shown (S1 if data shows).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.U11	**Devotee opens another devotee's booking**	Devotee 2 pastes the booking address of devotee 1.	Not found or not allowed; no data shown (S1 if data shows).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.U12	**Wrong file as video proof**	Pandit uploads a .txt, a file over 50 MB, and a valid short clip; also try upload while the booking is still Accepted (not started).	"Unsupported video format. Use MP4, WebM or MOV."; "That video is larger than 50 MB..."; before Start: "Video proof can only be uploaded once the puja has been started"; valid clip accepted.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.U13	**Video upload interrupted**	Start an upload and switch off Wi-Fi for 10 seconds, switch back on.	A clear failure with retry; no half-uploaded "Video uploaded" status; the devotee does not see a broken player.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.U14	**Complete without video**	Pandit looks for Mark Complete on a started booking that has no video; try the same by pressing the button after the upload is removed or from a second browser.	No Mark Complete button until a video exists; if forced: "Upload the video proof before marking this puja complete."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.U15	**Start too early**	Pandit presses Start more than 2 hours before the slot.	Start button disabled with the 2-hours message; status unchanged.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.U16	**Reschedule by the devotee**	On a Confirmed or Accepted booking use Reschedule: pick a date more than 24 h away; repeat three times; try inside 24 h.	Allowed up to 2 times; the third: "...the limit of 2 reschedules has been reached. Please contact support."; inside 24 h: "Rescheduling is not allowed within 24 hours of the scheduled puja time." If a pandit was assigned he is released, the booking returns to Confirmed and re-queues; the pandit sees it disappear and his pending earning is reversed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

ID	Scenario	How to test it (both screens)	Expected result	Result
J01.U17	**Pandit does not deliver**	Admin can only wait: 72 hours after the slot with no video the system cancels the booking with a full refund owed.	Booking appears in the admin refund queue with the SLA reason; devotee sees it cancelled. (Cron runs about every 30 minutes, so allow time.)	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.U18	**Review rules**	Devotee tries to review before completion, then after; try 0 stars, 2,001 characters, and text with HTML like "hi"; another devotee tries to review it.	No review before the video is uploaded (allowed only from Completed, Video uploaded or Delivered); stars must be 1-5; text up to 2000; HTML shown as plain text; only the owner can review.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.U19	**Idempotent payment webhook**	After a successful payment, refresh the success page several times and re-open the booking.	Exactly one booking, one payment, one commission line; no duplicate emails.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Edge cases

ID	Scenario	How to test it (both screens)	Expected result	Result
J01.E01	**Double click on Pay / Accept / Start**	Click each primary button twice quickly.	Only one action takes effect; no duplicate booking, duplicate offer acceptance or error banner.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.E02	**Browser back after payment**	After the success page press Back twice, then Forward.	No re-submission, no second booking; pages restore sensibly.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.E03	**Session expires mid-booking**	Sit on the sankalp step for 30 minutes then continue.	You are asked to sign in again and returned to the booking with your choices, or told clearly to restart. No generic crash page.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.E04	**Two tabs, same booking**	Open the booking in two tabs of Screen A; cancel in tab 1, then press Pay in tab 2.	Tab 2 refuses cleanly with a clear message; no payment is taken for a cancelled booking.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J01.E05	**Time zone**	Set your computer to a different time zone (for example UTC) and open the same booking on A, B, C, D.	All four screens show the same IST date and time.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J01.E06	**Hindi and special characters**	Enter sankalp in Hindi, with an apostrophe (D'Souza) and a very long name (80 characters).	Saved exactly; shown identically to the pandit and in admin; no broken characters; long name wraps and does not break layout.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.E07	**NRI devotee**	Mark the devotee as NRI/abroad and open the same puja.	Dollar reference shown; charge and booking amounts are in rupees; pandit and admin see rupee amounts; the same booking number everywhere.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.E08	**Same devotee books the same slot twice**	Book the same puja, temple, date and slot twice, once while the first is unpaid and once after it is paid.	While unpaid: refused with the "You already have an unpaid booking" message. After paid: record whether a second booking is allowed ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.E09	**Phone layout**	Do the booking wizard and the pandit accept/upload steps on a phone (390 px wide).	No horizontal scroll; primary buttons fully visible; video upload works from the phone.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.E10	**Very long list**	Create 25 QA bookings over time (or ask owner to seed) and open the pandit Bookings list.	Pager works; tabs and counts equal the real totals; no truncation silently hiding older bookings.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

Cross-role checks

ID	Scenario	How to test it (both screens)	Expected result	Result
J01.X01	**Numbers agree everywhere**	Compare price, fee, total, commission and payout for the booking on all four screens.	Identical figures; commission amount = provider earning; percentage = platform take rate; no rounding differences.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.X02	**Status words agree**	List the status shown to devotee, pandit, temple and admin at each step.	Each side may use its own wording but they never contradict (for example one says Completed while another says Accepted).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J01.X03	**Time to appear**	Note how long each change takes to show on the other screen without a manual refresh.	Under a few seconds after reload. Exception: offer expiry, auto-refunds and SLA cancellation run on a timer of about 30 minutes, so allow up to an hour for those. A change that never appears is S2.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

ID	Scenario	How to test it (both screens)	Expected result	Result
J01.X04	**Private data**	Check what the temple manager and the pandit can see about the devotee before and after acceptance.	Only what the product intends; no phone/email shown to the wrong role before acceptance.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J02 Cancel and refund (devotee, admin, pandit, temple manager)

Roles involved	Devotee, Admin, Pandit, Temple manager.
Testable today?	PARTIAL: cancelling an unpaid booking works today. Refund steps need a paid booking [PAY].
Purpose	Confirm the cancellation rule, the refund amount, the admin decision and how each role sees the booking afterwards.
Before you start	Three paid bookings (use the J01 flow): A = more than 48 hours ahead, B = between 24 and 48 hours ahead, C = inside 24 hours. One unpaid booking. Rule in the product: a devotee can cancel a Pending payment, Confirmed or Accepted booking; a paid booking needs at least 24 hours notice. Refund: full at 48 h or more, 75% from 24 to 48 h (50% and 25% exist only for admin overrides). Cancelling a paid booking sets it to Cancelled with a refund request (there is no separate "Refund requested" status).
Data to create	Booking numbers for A, B, C and the unpaid one.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J02.01 ★	**Devotee**	Open the unpaid (Pending payment) booking and cancel it (the list asks "Cancel this booking? This cannot be undone.").	Cancelled at once; no refund line because nothing was paid; slot released.	Admin: not listed as paid; Pandit and Temple: never saw it.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J02.02 ★	**Devotee**	[PAY] Open booking A (more than 48 h away) and press Cancel. Read the refund text BEFORE confirming.	The page shows the refund (full) before you confirm; after confirming the status is Cancelled and the page says a refund was requested (no processing time is promised).	Admin /admin/refunds: the booking appears under "Awaiting a refund decision" with the policy refund amount. Pandit (if assigned) sees it removed or cancelled. Temple sees cancelled.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J02.03 ★	**Admin**	[PAY] Approve the refund for A (choices: policy amount, full, or partial with an amount). Note that the system also refunds automatically about 1 hour after the cancellation on its next timer run, so check whether the booking was already refunded before you act.	Refund recorded once; a full refund moves the booking to Refunded ("Already refunded", read-only); a partial refund keeps Cancelled and records the partial amount.	Devotee: status Refunded with the amount and a message. Pandit: no earnings credited. Admin Revenue reflects the reversal ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J02.04 ★	**Devotee**	[PAY] Cancel booking B (24-48 h).	Text says 75% refund; after approval the refunded amount is 75% of the paid amount (check to the paisa).	Admin refund queue shows the 75% figure; approval flows to the devotee with the same figure.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J02.05 ★	**Devotee**	[PAY] Try to cancel booking C (inside 24 h).	Cancel is unavailable or refused with a plain message that cancellation is not possible inside 24 hours; booking unchanged.	Pandit and Admin: no change.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J02.06	**Admin**	[PAY] On another cancelled booking press Reject and enter a reason (required).	Decision recorded as [refund-rejected] with your reason; the booking stays Cancelled and stays visible in the queue; the payment is untouched.	Devotee: sees that the refund was declined and a way to contact support.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J02.U01	**Cancel after the pandit started**	Pandit starts a booking; devotee tries to cancel.	Refused (only Pending payment, Confirmed and Accepted bookings can be cancelled); no refund request created.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J02.U02	**Cancel twice**	Cancel the same booking from two tabs or press Cancel twice.	One cancellation, one refund; second attempt: "Booking cannot be cancelled in its current status cancelled."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J02.U03	**Cancel inside 24 hours**	Try to cancel booking C and use the separate Request refund option.	"Cancellation is not allowed within 24 hours of the scheduled puja time." and "Refund requests are not allowed within 24 hours of scheduled time."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J02.U04	**Approve refund twice**	Admin double-clicks Approve or approves from two tabs.	Only one refund is recorded (idempotent). The money-audit entry exists once.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J02.U05	**Payment arrives after cancel**	Cancel an unpaid booking, then finish a payment that was already open [PAY].	The payment is kept and flagged for a full refund; the devotee is told "Your payment was received, but this booking had already been cancelled. We have flagged it for a full refund."; the booking shows in the admin queue with a 100% quote.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J02.U06	**Refund while payout requested**	Booking already included in a pandit payout request, then refunded or released.	Release by the pandit is refused ("...your earning for it has already been paid out or is inside a payout request..."); admin refund adjusts the commission; no double payment.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J02.U07	**Another user cancels**	Devotee 2 tries to cancel devotee 1's booking by address.	Not allowed; no data shown.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Edge cases

ID	Scenario	How to test it (both screens)	Expected result	Result
J02.E01	**Exactly 48 h and exactly 24 h**	Book a slot exactly at the boundary and cancel at that minute.	Rule applied consistently with the text shown; note the exact minute behaviour.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J02.E02	**Partial pandit work**	Pandit accepted but did not start; devotee cancels.	Pandit sees the cancellation; his earnings stay zero; the offer does not linger in Upcoming.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J02.E03	**Refund amount with decimals**	Price with paise (for example 751.50) refunded at 75%.	Amount rounded to the paisa, identical in devotee view and admin queue.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

J03 Pandit declines, nobody accepts, admin reassigns

Roles involved	Devotee, Pandit 1, Pandit 2 (ask the owner for a second QA pandit), Admin.
Testable today?	BLOCKED until payments work [PAY]. Admin has no assign button on screen (read-only booking list): steps that need admin to assign are marked and need the owner to do them through the API.
Purpose	Check that a booking is never lost when pandits say no or do not answer, and that the devotee always sees an honest status.
Before you start	One paid booking (J01) and two QA pandits on duty.
Data to create	Booking number; names of both pandits.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J03.01 ★	**Pandit 1**	[PAY] On a Pending booking press Decline (a direct offer in /priest/offers also has Decline); or accept first and then press Release.	Decline/Release succeeds; the booking leaves his list.	Devotee: still "Waiting for a pandit". Admin: still in "Waiting for a pandit"; other pandits still see the offer.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J03.02 ★	**Pandit 2**	[PAY] Accept the same booking.	Becomes his booking (Accepted).	Devotee: shows pandit 2's name. Admin: Assigned to pandit 2. Pandit 1: cannot open it.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J03.03	**Pandit 2**	[PAY] Press Release on the accepted booking.	Booking is released.	Booking returns to "Waiting for a pandit" for devotee, admin and other pandits; devotee told in plain words ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J03.04 ★	**Admin**	[PAY] With nobody accepting for a long time look for an assign control on /admin/bookings. Today there is none: record that, then ask the owner to assign through the API (PATCH /bookings/:id with priestId).	No on-screen control (known gap, S3). Through the API: assignment succeeds.	Chosen pandit sees it under Accepted/Pending; devotee sees his name.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J03.05	**Admin**	[PAY] Reassign to a different pandit (API as above). Allowed while the booking is Confirmed, Accepted or In progress; refused if the new pandit has another booking at that time or the old one already has a paid commission.	Old pandit loses the booking; new pandit gets it.	Devotee sees the new name; old pandit's list and earnings carry nothing for it.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J03.U01	**Two pandits accept at the same second**	Pandit 1 and 2 press Accept together.	Only one succeeds; the other gets a plain "already taken" message.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J03.U02	**Pandit is off duty**	Switch the pandit off duty and create a new booking.	Offer does not go to the off-duty pandit; booking waits; admin can still assign.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J03.U03	**No pandit at all**	Turn every QA pandit off and book.	Devotee sees an honest waiting status, never a fake pandit name; admin sees it clearly flagged as waiting.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J03.U04	**Accepted pandit never starts**	Let the slot time pass without starting or uploading.	Nothing flags it on screen; 72 hours after the slot the system cancels it with a full refund owed (SLA). Record what each side shows in between.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J03.U05	**Direct offer expires**	A direct offer is left unanswered past its window.	Offer shows "This offer has expired."; the system re-offers or leaves it Confirmed for admin (allow up to 30 minutes for the timer).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J04 Temple invites a pandit onto the roster

Roles involved	Temple manager, Pandit, Devotee, Admin.
Testable today?	YES
Purpose	Prove that a pandit joins a temple only after accepting, and that only roster pandits can be assigned to that temple's pujas.
Before you start	Temple manager on Screen A, pandit on Screen B. Pandit has a complete profile.
Data to create	No data; invitation is the record.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J04.01 ★	**Temple manager**	Open /temple-portal/priests. Pick the QA pandit in "Invite a pandit"; tick "Ask them to be the primary pandit" once; press Send invitation.	Message "Invitation sent. The pandit joins your roster only after they accept." The pandit appears under Invitations as "Invited, waiting for the pandit" with a Withdraw link. Roster still empty.	Pandit: /priest shows a temple invitation card with the temple name and primary request. Admin: no change.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J04.02 ★	**Temple manager**	Open /temple-portal/pujas > Add Puja and open the Assigned Priest list.	The invited (not yet accepted) pandit is NOT selectable; the list offers only roster pandits or "No priest yet" with an explanation.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J04.03 ★	**Pandit**	Accept the invitation on /priest.	Card disappears; confirmation.	Temple: invitation moves from Invitations to "On your roster" with the pandit.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J04.04 ★	**Temple manager**	Add a puja and now choose the pandit under Assigned Priest. Save.	Saved without the error "That priest is not on your temple roster".	Devotee: booking that puja shows the assigned pandit (or he receives it first) ◆ confirm. Pandit: sees the temple among his temples.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J04.05	**Temple manager**	Invite a second pandit, then press Withdraw before he answers.	Invitation removed from the list.	Pandit: the card is gone; accepting an old link shows a clear "no longer available" message.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J04.06	**Pandit**	Decline an invitation from a third temple/QA invite.	Card disappears.	Temple: invitation shows Declined or disappears (record which).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J04.U01	**Invite the same pandit twice**	Send an invitation to a pandit who is already invited or already on the roster.	Refused with a plain message; no duplicate rows.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J04.U02	**Invite with nobody selected**	Press Send without choosing a pandit.	Field-level message; nothing sent.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J04.U03	**Pandit not verified/complete**	Try to invite a pandit with an incomplete profile.	Allowed or refused with a clear reason ◆ confirm; no crash.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J04.U04	**Another temple's pandit assignment**	Pandit on temple A's roster is assigned to a puja of temple B.	Refused (not on that temple's roster).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J04.U05	**Pandit removed from roster**	Remove the pandit (if possible) while he has an upcoming booking.	Clear handling: existing booking stays with him or admin is alerted ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J05 Temple manager joins, admin verifies, devotee can book

Roles involved	Visitor, Temple manager, Admin, Devotee.
Testable today?	YES
Purpose	Follow a new temple from sign-up to being bookable, including what stops a devotee booking before it is ready.
Before you start	Use a fresh alias for the new manager. Admin on Screen C.
Data to create	Temple name QA-Temple Pune, pincode 411030, latitude 18.5195, longitude 73.8553 (fake but valid format).

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J05.01 ★	**Visitor**	Open /list-temple (or Become a temple manager) in a private window. Sign up and submit the form. Try claiming an existing catalogue temple and a brand-new temple in two separate runs.	Account created and you land in /temple-portal. Providers go live on submit. If the temple name matches a catalogue temple (case-insensitive) the manager is linked to it directly; otherwise a NEW temple is created with location 0/0, no pincode, status pending review and not verified.	Admin Users shows the new account with the temple manager role. Admin Approvals stays empty (approval is off).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J05.02 ★	**Devotee**	Before the temple is verified, try to book a puja there and, separately, to donate to the temple.	Booking is refused: "This temple has not been verified yet." (TEMPLE_NOT_VERIFIED). Donation is refused: "temple_not_onboarded" wording (a temple needs to be verified AND have an approved manager). The public catalogue lists only active temples, so a pending one may not appear at all.	Temple: no booking appears. Admin: none.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J05.03 ★	**Admin**	/admin/temples: open QA-Temple. Try Verify with no pincode and with a 5-digit pincode.	Refused: "Cannot verify this temple until its location is fixed" (coordinates missing and/or pincode invalid). Save a valid 6-digit pincode and latitude/longitude, add at least one offering (or use the admin "standard offerings" action if it is on screen: it adds five stock pujas, slots 06:00-18:00, max 5 per slot) and then Verify.	Temple manager: status becomes Verified/Live on Darshya.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J05.04 ★	**Devotee**	Retry the booking.	Booking proceeds to the payment step [PAY].	Temple sees the booking after payment.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J05.05	**Admin**	Unverify the temple again.	Warning that devotees can no longer book.	Devotee: new booking attempts refused again; existing bookings unaffected ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J05.U01	**Temple with no offerings**	Verify a temple that has no puja offerings.	Admin list warns "No puja offerings yet: devotees cannot book a puja here"; devotee cannot complete a booking.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J05.U02	**Two managers claim one temple**	Second manager claims the same catalogue temple.	Handled with a clear message or shared management; no crash; record which ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J05.U03	**Duplicate temple name**	Create two temples with the same name and city.	Duplicate refused or warned.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J06 Live darshan: temple schedules a stream, devotee watches

Roles involved	Temple manager, Devotee, Visitor.
Testable today?	YES
Purpose	A stream scheduled by the temple must appear (and disappear) for the public correctly.
Before you start	Temple manager on Screen A, a visitor window on Screen B. Have a valid YouTube live or video link ready.
Data to create	Stream title "QA-Morning aarti", future start time.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J06.01 ★	**Temple manager**	/temple-portal/darshan: Schedule Stream. Provider YouTube; paste a YouTube link or id; title "QA-Morning aarti"; start tomorrow 06:00; Schedule.	Only the YouTube link/id is required for YouTube; helpful field hints; the stream appears in the list as scheduled.	Visitor: the temple's /darshan page shows the stream as upcoming at the right IST time ◆ confirm placement.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J06.02 ★	**Temple manager**	/temple-portal/schedule: add a regular slot "Mangala Aarti 05:00-06:00" and a closed day; Save.	Saved; persists after reload.	Visitor: "Live" / "Next aarti" badges follow the new timings.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J06.03	**Visitor**	Open /darshan and the temple page; press play when live.	Video plays inside the page; no "Video unavailable" for a valid video.	Temple: viewer count may change ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J06.04	**Temple manager**	Delete or cancel the QA stream.	Removed from the list.	Visitor: no longer shown after refresh.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J06.U01	**Invalid link**	Schedule with "not a link" and with a video id of 5 characters.	Clear field message; nothing saved.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J06.U02	**Start in the past**	Schedule a stream starting yesterday.	Refused or flagged as past with a clear message.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J06.U03	**Dead video**	Use a removed YouTube video.	Public page shows a friendly unavailable note, not a broken player or error code.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J06.U04	**Required fields**	Press Schedule with title empty.	The browser or page names the missing field; nothing saved.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

J07 Astrologer consultation: devotee and astrologer

Roles involved	Devotee, Astrologer, Admin.
Testable today?	PARTIAL: set-up, the booking form and its validation work today; paying and the live session [PAY].
Purpose	Availability and rate set by the astrologer must control what the devotee can book; the session, chat, completion and earnings must agree on both sides.
Before you start	Astrologer has saved a profile (display name, rate) and is approved and listed; devotee signed in on another browser.
Data to create	Rate 30 per minute; availability Monday morning and Tuesday afternoon; a booking of 10 minutes (price 300).

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J07.01 ★	**Astrologer**	/astrologer-portal/profile: save display name, rate 30 per minute, specialties. Then /availability: switch some cells, Save Schedule. Turn "Go online" ON.	Saved messages; "You are now online."; the profile must exist before availability can be saved ("Save your profile (with your display name) before setting availability.").	Devotee: /astrology shows the astrologer (only approved profiles are bookable; listing needs a rate that is not the placeholder and at least one specialty).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.02 ★	**Devotee**	Open the astrologer, press book. Choose 10 minutes and a time inside the hours, then check the price and the footer text.	Button reads "Pay Rs 300 & Start Consultation"; hours are shown in IST; the form says to cancel at least 24 hours before a booked slot for a full refund.	Astrologer: nothing yet.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.03 ★	**Devotee**	[PAY] Pay.	Success "Consultation Booked!" and a chat thread with the astrologer is opened for you. If the connection drops the page says not to pay again and to open My Consultations.	Astrologer: notification "New consultation booked" and the booking under Consultations (Confirmed). Admin /admin/consultations: tile Confirmed (joinable) +1.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.04 ★	**Both**	[PAY] At the booked time both press Join. The room is an external video meeting link; open it on both sides. Chat in the thread too.	Devotee Join appears only when Confirmed and a room exists. If no room: astrologer sees "No room has been created for this consultation yet."	Both can talk. Messages arrive in the chat with the sender name.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.05 ★	**Astrologer**	[PAY] Try End/Complete before the booked time, then at the booked time.	Before: "This consultation cannot be marked complete before it starts, at H:MM AM IST on ...". After: completes.	Devotee: "Consultation Completed ... This session is closed." Astrologer earnings: the 80% share moves from Upcoming to Ready to withdraw (20% platform).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.06	**Devotee**	[PAY] After the call, open the chat: a "Rate your service" bar appears. Submit 5 stars with text.	Saved; button changes to "Update rating".	Known gap: the astrologer's public rating and the reviews list may NOT change. Record what you see.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J07.07	**Astrologer**	Go offline while the devotee views the profile; the devotee tries an instant consult.	Toggle persists ("You are now offline.").	Devotee: 409 style message "<name> is not online right now. Book a slot instead..."; presence also goes stale after 15 minutes without a refresh.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J07.U01	**Outside availability**	Book a slot on a switched-off day or hour.	"<name> is not taking bookings for that time. Their hours: ... Pick a time inside those hours, or leave the slot blank." Note: a booking with NO slot is not availability-checked.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U02	**Slot rules**	Book 4 minutes, 61 minutes, a time in the past, a time 61 days ahead, and a price below Rs 50.	Minutes must be 5-60; "Pick a time in the future."; "Slots can be booked up to N days ahead."; "Minimum consultation amount is Rs 50."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U03	**Book yourself**	Sign in as the astrologer and book your own profile.	"You cannot book a consultation with yourself."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U04	**Old fixture astrologers**	Try to book one of the sample astrologers (not a real profile).	"This astrologer is not available for booking. Browse approved astrologers..."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U05	**Double click Pay**	Press Pay twice, or reopen the booking within 15 minutes.	The same open order is reused; one booking only.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U06	**Payment under review**	Gateway cannot confirm a payment.	Devotee sees "Payment Under Review ... do not pay again"; astrologer sees nothing; admin tile Payment Pending/review.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U07	**Unpaid expiry**	Leave a booking Pending payment for 30 minutes.	It is cancelled automatically when no real order exists.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J07.U08	**Cancel with refund rules**	Devotee cancels a paid booking: (a) more than 24 h before the slot, (b) inside 24 h, (c) a booking without a slot within 24 h of paying. Also cancel an unpaid one.	Refund is all-or-nothing: (a) full refund in 5-7 business days and the astrologer's commission is reversed; (b) "Refund not eligible - past the 24-hour cancellation window" and the astrologer keeps the earning; unpaid: "You have not been charged". There is no astrologer-side cancel button.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U09	**Cancel while completing**	Devotee cancels at the moment the astrologer presses End.	"This consultation was just updated. Refresh the page..."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U10	**Complete by the wrong person**	A devotee or another astrologer calls Complete.	"Only the assigned astrologer or admin can mark complete."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U11	**Refund stuck**	After a failed refund repeat the cancel request; admin looks for stuck refunds.	Repeating retries the refund; admin consultations list shows the stuck refund (admin page can End but cannot refund: known gap).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J07.U12	**Payout needs KYC**	Astrologer requests payout before KYC.	"Add your bank / UPI details to withdraw." or "Your KYC is being verified. Payouts unlock once verified."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J08 Wellness session: instructor and student

Roles involved	Devotee, Wellness instructor, Admin.
Testable today?	YES for a FREE session (price 0); paid enrolment [PAY].
Purpose	A session created by the instructor must show correct IST time, price and capacity to students; enrolment, roster, room link, cancellation and refunds must agree on both sides.
Before you start	Instructor has saved a profile (a new profile needs a display name); instructor on Screen A, student on Screen B.
Data to create	Sessions "QA-Yoga free" (price 0) and "QA-Yoga paid" (price 200), tomorrow 07:00 IST, 60 minutes, capacity 2.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J08.01 ★	**Instructor**	/wellness-portal/sessions: Add Session with the data above (type YOGA, description at least 1 character, title 3+ characters). Add a room link (a valid http/https URL).	Session listed with "07:00 am IST", price, 0/2; a past start is refused ("scheduledAt cannot be in the past.").	Devotee: /wellness/classes lists it with the same IST time, price and an instructor card that opens a real profile.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J08.02 ★	**Devotee**	Open the FREE session and press Enrol.	Enrolled at once with no payment; "Find this class again in My classes"; seats show "1 spots left" style text.	Instructor: "View roster" shows the student; Students page lists them; count 1/2. Free sessions create no payment and no commission.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J08.03 ★	**Devotee**	Open the class page before and after you enrol (and before the instructor publishes the link).	Not yet enrolled/no link: "The instructor has not published the live room link yet..."; after publishing and enrolment: "Join the live room". The reminder promised there may not be sent (no reminder job found): record whether any reminder arrives.	The room link is visible only to the instructor, admin and PAID/ATTENDED students, never in the public list.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J08.04 ★	**Devotee**	[PAY] Enrol in the PAID session and pay.	Pending payment then Paid; receipt email "Darshya payment receipt - <title>".	Instructor: student on roster; the 80% earning is pending until the session is completed or its time has passed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J08.05	**Instructor**	After the start time mark attendance for the student; then set the session Completed.	Attendance marked (only after the class started); Completed refused before the start time ("cannot be marked complete before it starts").	Student: enrolment shows Attended; they can no longer cancel ("already attended").	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J08.06 ★	**Instructor**	Cancel the paid session (status Cancelled) after enrolment.	A modal "Cancel this session?" shows how many paid learners; confirm.	Student: every enrolment is cancelled with a 100% refund, push "Class cancelled" and an email "Class cancelled: <title>".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J08.U01	**Capacity and held seats**	Capacity 2: enrol devotee 1, 2, 3. Leave one PENDING payment without paying.	Third attempt "Session is full"; a pending (unpaid) enrolment also holds a seat and there is NO automatic expiry, so the seat stays held until that learner cancels (report as a gap).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J08.U02	**Closed for enrolment**	Try to enrol after the start time, in a cancelled session, in a completed session, twice, and with an instructor who has no profile.	"This session has already started and is closed for enrolment." (except when LIVE); "Session is cancelled"; "Session has already completed"; "You are already enrolled"; "This instructor has not finished setting up a profile yet, so bookings are not open."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J08.U03	**Edit locks**	Instructor changes the price or lowers capacity after enrolments; moves the session to the past; cancels a completed session.	"The price cannot be changed once learners have enrolled..."; "N learners hold seats... capacity cannot be lower than N"; "A session cannot be moved to a time that has already passed."; "A completed session cannot be cancelled."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J08.U04	**Delete rules**	Delete a free session with students and a paid session with students.	Free: deleted (confirm says enrolments are removed). Paid: "This session has paid enrolments. Cancel it (status CANCELLED) so devotees can be refunded instead of deleting it."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J08.U05	**Student cancels**	Student cancels a paid enrolment: more than 48 h, 24-48 h, inside 24 h.	100%, 75%, then "Paid classes can be cancelled up to 24 hours before they start." Unpaid enrolments cancel with no refund; the instructor's earning is reduced in proportion.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J08.U06	**Wrong role**	A pandit or an instructor tries to enrol; another instructor opens the roster.	Enrol needs the devotee role; roster is instructor-only ("Only the instructor can view the roster").	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J08.U07	**Validation**	Create a session with blank title, price -1, duration 0, capacity 0.	Each refused with a clear field message.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

J09 Gaushala donation and receipt

Roles involved	Devotee, Gaushala manager, Admin.
Testable today?	PARTIAL: the form, its validation and the manager portal work today; the donation itself [PAY].
Purpose	A donation must appear for the gaushala with the right amount and receipt number, and admin must be able to record the bank transfer.
Before you start	Gaushala manager has an approved profile that passes the quality check (name 3+ characters, description 20+ characters and 3+ words, address 10+ characters). Manager on Screen A, devotee on Screen B.
Data to create	Amounts 100, 101, 1100, 2000, 1000001; phones 8868912697, "+91 8868912697", "88689 12697"; PAN ABCDE1234F.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J09.01 ★	**Devotee**	Open /gaushala and a gaushala, press Donate. Use the presets (101, 501, 1100, 2100, 5100, 11000) and a typed amount. Fill name, email and phone in each format.	No wrong minimum at 1100; "Minimum donation is Rs 101" at 100; maximum Rs 10,00,000. PAN is optional (format AAAAA9999A; "Invalid PAN format" otherwise); dedication up to 200 characters; phone 10-13 digits.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.02 ★	**Devotee**	Press pay. [PAY]	Today: honest failure ("We could not open the payment page right now. Nothing has been charged."). After the gateway works: receipt DR-YYYYMMDD-XXXX, a PDF receipt by email, and wording "Proof of donation - not a tax exemption certificate" (80G is not live).	Gaushala: /gaushala-portal/donations lists the donation (donor, email, phone, masked PAN, amount, status, receipt, date); totals increase.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.03	**Devotee**	Choose an adoption plan card (Gau Seva / Gau Palan / Gau Raksha).	The plan only pre-fills a donation amount; there is no separate adoption, no "monthly updates", and the Daily plan pre-fills 51 which is BELOW the Rs 101 minimum (record how the form reacts).	Gaushala sees an ordinary donation.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.04	**Gaushala manager**	Filter by Received/Pending/Failed, search by donor or receipt, press Export CSV.	Filters work; a CSV donations-YYYY-MM-DD.csv downloads with the same rows.	Devotee: receipt matches the row.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.05 ★	**Admin**	/admin/gaushala-disbursements: record a transfer with amount and the bank reference (UTR) after sending the money outside the app.	Recorded once; the balance owed reduces. Donation money is never paid out automatically.	Gaushala: balance/disbursement reflects it ◆ confirm where it shows.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.06	**Gaushala manager**	Register a cow (QA-G1: tag 1-20 characters, gender, health status) and a volunteer (QA-V1, role); deactivate the volunteer.	Cow appears in the registry; counters and Active/Inactive filters change.	Public gaushala page may update cow counts ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J09.U01	**Bad values**	Phone "abc", email without @, PAN "ABC", amount 0, -5, 100.50, 1000001.	"Invalid phone number", email error, "Invalid PAN format", minimum/maximum messages; nothing submitted.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.U02	**Gaushala not onboarded**	Donate to a gaushala whose profile fails the quality bar.	"This gaushala is not yet onboarded to receive donations through Darshya. Please choose a verified gaushala."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.U03	**Failed payment**	Gateway failure after the order was created.	Donation shows Failed or Pending (never Received); a paid donation is never changed back to failed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.U04	**Re-click Pay**	Press Pay twice within 15 minutes with the same amount.	The same created donation is reused.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.U05	**Admin transfer errors**	Record a transfer larger than the balance, then the same reference twice, and one with no UTR.	"Only Rs X is owed to this gaushala; that is more than was received in donations."; "A transfer with this reference is already recorded for this gaushala."; "Enter the gaushala, an amount above zero and the transfer reference (UTR)."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.U06	**Another gaushala's data**	Manager opens another gaushala's donations or cows.	Not visible.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J09.U07	**Profile quality**	Manager saves the profile with a 10-character description or a name with no letter.	"Profile edit rejected" with an explanation; the public listing is unchanged.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J10 Store order: devotee, store owner, admin

Roles involved	Devotee, Store owner, Admin.
Testable today?	YES for cash on delivery; online payment [PAY].
Purpose	A product created by the owner must be orderable; stock, status, delivery charge and refunds must agree on both sides; the rule that cash on delivery earns no platform commission must hold.
Before you start	Store owner on Screen A (store profile saved), devotee on Screen B with an Indian delivery address.
Data to create	Product "QA-Diya", price 20, stock 5, category Puja Items. Delivery charge is Rs 49 under Rs 499 and free from Rs 499.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J10.01 ★	**Store owner**	/store-admin/products: Add Product QA-Diya, price 20, stock 5. Save.	Listed as Active with stock 5; the product name is 2+ characters.	Devotee: /store shows the product; add to cart works. Catalogue preview items still say "Not available to order".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J10.02 ★	**Devotee**	Add 2 to the cart, open /store/cart and /store/checkout, enter a sample address (6-digit PIN, India). Check the total, choose cash on delivery and place the order.	Total = 2 x 20 + 49 delivery = 89; order number shown; status Pending. Stock is reduced at once (before any payment).	Store owner: /store-admin/orders shows the order; stock is 3.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J10.03 ★	**Store owner**	Move the order Confirmed, Processing, Shipped (with a tracking number), Delivered, one step at a time.	Each allowed step saves; tabs and counters move; the history is kept.	Devotee: /store/orders status follows; an email arrives on Confirmed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J10.04 ★	**Admin**	Open /admin/revenue and the store area.	Cash-on-delivery sales are shown separately from online-paid sales.	Store owner: revenue page says COD money is collected by the owner and does not appear in payouts. A COD order creates NO platform commission and NO ledger credit.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J10.05 ★	**Devotee**	Place a second order and cancel it while it is Pending, Confirmed or Processing.	Cancelled; stock is restored.	Store owner: order Cancelled; his pending commission (if any) is reversed. For a PAID online order the devotee sees "Your refund request has been sent to our team for approval; it is not refunded instantly."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J10.06	**Admin**	[PAY] /admin/store-refunds: approve the refund of the cancelled paid order (policy or full) and try Reject without a reason.	Approve sends the refund; Reject without reason: "A reason is required to reject a refund."	Devotee: email "A refund of Rs X ... has been processed ... (5-7 business days)".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J10.U01	**Out of stock and races**	Order 4 when stock is 3; two devotees order the last unit together.	"Insufficient stock for ... (have N, want M)"; one order succeeds, the other is refused.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J10.U02	**Mixed stores and previews**	Put items from two stores, or a catalogue preview item, in one basket.	"Mixed-store carts are not supported. Place a separate order per store."; "One item in your basket is a catalogue preview - no seller stocks it yet".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J10.U03	**Address**	PIN 12; a non-Indian country; empty address.	"Enter a valid 6-digit Indian pincode."; "Store orders are delivered within India only."; field messages.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J10.U04	**Price changed**	Owner changes the price while the devotee is on checkout, then the devotee pays.	"Prices in your cart have changed. Please review your order total and try again."; existing orders keep their original price.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J10.U05	**Shipped or delivered**	Devotee cancels a Shipped and then a Delivered order.	"This order has already shipped and can no longer be cancelled."; "This order has been delivered. Please contact support to arrange a return." (there is no self-service return).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J10.U06	**Wrong transitions and owners**	Owner jumps Pending to Delivered; another owner changes the status; mark a paid online order Refunded from the owner screen.	"Cannot transition order from X to Y."; "Admin or store-owner role required"; refund must use the refund screen.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J10.U07	**Unpaid online order**	Start an online checkout, fail to pay [PAY today], leave it.	The order stays Pending and its stock stays held (no automatic expiry): record this as a gap if stock never returns.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J10.U08	**Checkout signed out**	Open /store/checkout in a private window.	Sent to sign-in and returned; no redirect loop.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
J10.U09	**Owner list scale**	Owner order list when the platform has more than 200 recent orders.	Owner still sees all of their own orders (known risk: the list is cut to the 200 most recent platform orders first).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

J11 Gurukul application

Roles involved	Devotee/student (or parent), Gurukul manager.
Testable today?	YES (there is no payment and no notification in this flow)
Purpose	A gurukul listing and its programmes must be reachable by the public, applications must reach the manager, and the manager's decision must be visible to the applicant.
Before you start	Gurukul manager signs in as the QA gurukul account (a devotee who owns a gurukul); student is a second signed-in devotee.
Data to create	Programme "QA-Sanskrit basics" (duration 1-240 months, age 8-18, description 10+ characters).

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J11.01 ★	**Gurukul manager**	Sign in as the gurukul account.	You land on /gurukul-portal (a short dashboard flash first); no devotee-only tiles.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J11.02 ★	**Gurukul manager**	Register a gurukul through /become-gurukul (slug lower-case letters, digits and dashes; name 2+; description 20+ characters; valid contact email; at least one programme).	Created; the portal shows "Listed, not yet verified". Without sign-in: "Please sign in to register a gurukul."; without a programme: "Add at least one program."	Public /gurukuls lists it only while active; verified listings sort first. There is no admin screen to verify (API only).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J11.03 ★	**Student**	Open the gurukul programme and apply: student name, age, statement 20+ characters, applicant type self or parent. For a minor choose parent and fill guardian name, relation, phone and consent.	Success "Application submitted. You can track its status from your account."	Gurukul manager: Applications shows the applicant, programme and statement. NO email or notification is sent to either side: record that.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J11.04 ★	**Gurukul manager**	Forward, accept or reject the application (add a note up to 2000 characters).	Decision saved with date.	Student: check their applications list (/gurukul-applications/mine in the account area) for the new status; record where, if anywhere, the decision is visible.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J11.U01	**Minors and age**	Apply as self with age 12; apply with an age outside the programme range; apply to a gurukul that does not accept minors.	"Minors must apply via parent applicantType with guardian fields + consent."; "Age must be between X and Y years"; "This gurukul does not accept minors".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J11.U02	**Missing consent/guardian**	Parent application without consent or guardian phone.	"Consent must be signed."; "Guardian name, relation, and phone are required for minors."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J11.U03	**Inactive programme**	Manager deactivates (API) or the programme is inactive, then the student applies.	"Program not available".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J11.U04	**Duplicate slug**	Register a second gurukul with the same slug.	"Slug already in use".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J11.U05	**Not the owner**	Another user tries to change an application of this gurukul.	"Not owner of this gurukul".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J12 Yatra inquiry

Roles involved	Devotee (no sign-in needed), yatra desk (the owner's inbox).
Testable today?	YES
Purpose	A person must be able to plan a yatra and send an inquiry without any payment, and the two emails and the on-screen promise must not contradict each other.
Before you start	Owner watches the desk inbox (yatra@darshya.online unless changed) and the buyer inbox you use.
Data to create	Package char-dham, tier economy/standard/premium, start date in the future, 2 travellers, QA- name, your email and phone.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J12.01 ★	**Devotee**	Open /yatra/plan, add Kedarnath, read the "Nearby places you may also like" hint and add one.	Distance and drive-time hints are sensible (road distance at least the straight-line figure).	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J12.02 ★	**Devotee**	/yatra/book?slug=char-dham: go through all steps and send the inquiry.	Review reads as an inquiry (no "pay"); readable start date; "Inquiry received" with a Reference ID; the page says no reply time is promised; the quote is tax-inclusive.	Desk inbox: email "[Yatra <tier>] <title> - N pax" once. Buyer inbox: "Yatra inquiry received - <reference>". NOTE: the buyer email says the desk replies with an invoice within 24 hours while the page says no time is promised: log that contradiction as S3.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J12.03	**Devotee**	Open "View my inquiries".	The inquiry is listed (it is stored only in this browser, not on the server).	Clearing site data or another browser shows nothing: record it.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J12.04	**Devotee**	Press the send button twice quickly.	One inquiry (duplicates within 10 minutes return the same answer).	Desk inbox: one email.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J12.U01	**Missing fields**	Skip name, valid email, phone and date; travellers 0 and 51.	Clear field messages per step; travellers 1-50.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J12.U02	**Network failure**	Go offline, then press send.	"Could not reach our yatra desk. Email yatra@darshya.online directly or try again in a minute." and no fake success.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J12.U03	**WhatsApp copies**	If WhatsApp is enabled, check the desk and buyer phones.	Templates arrive or are skipped without an error on the page.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J13 Support ticket and contact form

Roles involved	Any role, Admin.
Testable today?	YES
Purpose	A person with a problem must be able to reach the team, see replies, and not see anyone else's ticket.
Before you start	Devotee on Screen A, Admin on Screen B.
Data to create	Ticket subject QA-ticket-01 (3-200 characters), body 1-10000 characters.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J13.01 ★	**Devotee**	/support/ticket/new: choose category (Booking, Payment, Account, Technical, Other), priority, message. Submit.	Ticket number and confirmation; it is listed under /support/tickets.	Admin /admin/support: Open tickets +1; ticket shows user, category, priority; the support inbox gets an alert and the devotee an acknowledgement email.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J13.02 ★	**Admin**	Open the ticket; reply (and add one internal note); set priority and assignee.	Reply saved; the first public reply moves Open to In progress; internal notes are not shown to the devotee.	Devotee: sees status and the reply in the ticket and by email.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J13.03 ★	**Devotee**	Reply back, then close the ticket yourself (resolve).	Reply saved; closing works only for the person who opened it.	Admin: sees the reply and the new status; "Resolved today" counter changes; the 24-hour response-time target is shown as met or breached.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J13.04	**Visitor**	/contact: fill the form and send.	The form opens your email program with a pre-filled message (it is a mailto link, not a server form).	Owner inbox: only if you actually send the email from your mail program.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J13.U01	**Other user's ticket**	Paste devotee 1's ticket address while signed in as devotee 2; call the all-tickets list as a devotee.	"Not authorized to view this ticket"; "Admin role required to list all tickets".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J13.U02	**Empty and huge text**	Submit empty; submit 10,001 characters; attach a file larger than 5 MB.	Empty refused; limits enforced with a clear message.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J13.U03	**Offline**	Submit while offline.	"Saved offline. Will sync when you are back online." and it syncs later; "Could not reach server" on failure.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J13.U04	**Wrong closer**	Another devotee or a provider tries to close the ticket.	"Only the devotee who opened this ticket can close it".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J13.U05	**Signed out**	Open the new-ticket page signed out.	Sent to sign-in and brought back after.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J14 Become a provider, KYC, payout request

Roles involved	Visitor, Provider (pandit, temple, astrologer, wellness, gaushala, store), Admin.
Testable today?	YES (up to the payout request; payout completion needs earnings)
Purpose	A new provider must be able to join without an approval step, submit KYC, be verified or rejected by admin, and be blocked from payout until verified.
Before you start	Use a new alias per provider type. Admin on Screen B.
Data to create	Fake KYC details only (clearly fake numbers). Never real documents.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J14.01 ★	**Visitor**	Two ways in. (a) Sign up at /auth/signup choosing a provider role. (b) Use a lead form (/become-astrologer, /become-priest, /become-wellness, /list-temple, /list-gaushala): it sends a lead to admin, who converts it and the person gets a "you're verified, sign in" email with a one-time magic link. Do both for one role.	(a) Account created, "Account Created!" page and the portal opens; no waiting-for-approval screen. (b) The form says it was received.	(a) Admin Users shows the new role; Approvals stays empty. (b) Admin /admin/leads shows the lead; setting it to Converted creates the user and sends the magic-link email.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J14.02 ★	**Provider**	Save the profile with the placeholder price/rate and no specialties, then with a real price and specialties (pandit placeholder 500, astrologer 10 per minute, wellness 500). For temple and gaushala also try a 10-character description.	Portal is active either way; the profile is LISTED publicly only once the price differs from the placeholder and specialties exist; temple/gaushala also need a real name, a 20+ character description (3+ words) and a full address. Otherwise: "Your portal is active. Add your price and specialties and details to be listed."	Devotee side: provider appears in the public directory only after listing; admin can approve a gaushala/temple only if it passes the quality check.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J14.03 ★	**Provider**	Open the portal home.	Banner "KYC required for payout"; the profile shows Live on Darshya.	Admin: nothing yet.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J14.04 ★	**Provider**	Submit KYC with fake details: Aadhaar 12 digits, PAN AAAAA9999A, bank account 9-18 digits, IFSC like HDFC0123456, holder name.	Confirmation "KYC submitted..." (no review time promised); status Pending. Wrong formats are refused with field messages.	Admin /admin/kyc: Pending list shows the submission.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J14.05 ★	**Admin**	Verify one provider; reject another with a reason (3+ characters). Try to verify a provider with no bank account on file.	Decisions saved; verify without bank details: "Cannot verify: this provider has no bank account on file...".	Provider: sees Verified, or Rejected with the reason and a way to resubmit.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J14.06 ★	**Provider**	Open Payouts before and after verification.	Before: request blocked with the KYC message. After: request allowed when a balance exists.	Admin /admin/payouts: request listed under Pending.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J14.U01	**Duplicate sign-up**	Sign up again with the same email or phone.	Clear message; no second account; no orphan half-account.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J14.U02	**Existing devotee becomes provider**	A signed-in devotee opens a Become-a-provider page.	The extra role is added to the same account and the portal opens; the devotee view is still reachable.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J14.U03	**Incomplete KYC**	Submit KYC with missing bank details.	Field-level message; nothing sent.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J14.U04	**Resubmit after rejection**	Resubmit after a reject.	Goes back to Pending; admin sees the new submission.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J15 Messaging between roles

Roles involved	Devotee with Pandit, Astrologer, Instructor, Gaushala, Store owner and Temple.
Testable today?	PARTIAL: threads appear once a booking/order/enrolment exists.
Purpose	A message must reach the right person once, show who sent it and when, and never leak into other threads.
Before you start	Complete a booking/order for each provider first.
Data to create	Messages starting with QA-.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J15.01 ★	**Devotee**	Open Messages (devotee area) and the thread with the provider; write "QA-hello".	Appears immediately with time and your name; input clears.	Provider Messages: the thread appears with an unread indicator and the same text.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J15.02 ★	**Provider**	Open the thread and reply with Hindi text and a long paragraph.	Appears; layout holds.	Devotee: sees the reply; unread cleared on open.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J15.03	**Both**	Refresh both screens.	History identical on both sides.	No duplicates, no missing messages.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J15.U01	**Empty and spam**	Send empty, 5,000 characters, and 10 messages quickly.	Empty refused; long handled; no duplicates.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J15.U02	**Wrong thread**	Open another user's thread by address.	Not allowed; no content.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J15.U03	**Script text**	Send "<script>alert(1)</script>".	Shown as plain text on both sides.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J16 Sign-up, sign-in, role landing, sessions

Roles involved	All roles, Visitor.
Testable today?	YES
Purpose	Every way in must land the person in the right place, keep them signed in, and let them out; failures must be friendly.
Before you start	Private window; one email you can read.
Data to create	Brand-new sign-up alias.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J16.01 ★	**Visitor**	Sign up as a new devotee: name 2+ characters, password 8-72 characters with a letter and a digit, terms box ticked. Then confirm the email link before signing in.	Until the email is confirmed sign-in says "Please confirm your email address before signing in." After confirming: lands on the profile or dashboard; the session survives a reload. A duplicate email: "An account with this email already exists".	Admin Users: the new devotee appears (role devotee, Active).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.02 ★	**Each role**	Sign in and note the landing page.	Devotee /dashboard; pandit /priest; temple /temple-portal; astrologer /astrologer-portal; wellness /wellness-portal; gaushala /gaushala-portal; store /store-admin; gurukul owner /gurukul-portal; admin /admin.	Wrong landing is S2.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.03 ★	**Any**	Sign out, press Back.	Protected pages ask for sign-in; no private data from cache.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.04	**Visitor**	Forgot password: request, open the email link, set a new password.	Link works and the new password signs in (email may be delayed).	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.05	**Any**	Sign in with Google (if offered).	Lands in the right place with the right name.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J16.U01	**Wrong password**	Enter a wrong password three times, and then repeatedly.	"Invalid email or password" with no hint which is wrong; after many tries "Too many login attempts for this email. Try again in 15 minutes."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.U02	**Suspended account**	Admin blocks the QA user (J17) and they try to sign in.	"This account has been suspended."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.U03	**Phone OTP**	Try the Mobile tab: invalid number, OTP request, wrong code.	SMS is not connected yet so BLOCKED today; the messages for invalid number, too many requests and wrong code should still be friendly.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.U04	**Reset password**	Use a reset link twice, and a short or letters-only new password.	"This link is no longer valid"; "Password must contain at least one letter and one number."; "Passwords do not match."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.U05	**Demo emails**	Sign up with devotee@demo.com.	"This email is reserved for demo accounts. Please use a different email."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.U06	**Unknown email**	Sign in with an unknown email.	Same friendly error as a wrong password (no account enumeration).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.U07	**Protected page signed out**	Open /priest, /admin, /dashboard signed out.	Sent to sign-in; return-to works after sign-in.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.U08	**Wrong role page**	Signed in as devotee, open /admin and /priest.	Refused; no content.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J16.U09	**Session expiry**	Leave a page open for an hour, then act.	Re-authenticates quietly or asks to sign in; no blank crash.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J16.U10	**Two windows**	Sign out in one window while another is open.	The other window handles the next action gracefully.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J17 Admin power actions and their effect on the user

Roles involved	Admin and any user.
Testable today?	YES
Purpose	Admin changes must show up on the affected user at once.
Before you start	Admin on Screen A, a QA user on Screen B.
Data to create	A QA user only.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J17.01 ★	**Admin**	/admin/users: search the QA user; open details; change role to another role.	Saved with confirmation.	User: after reload lands in the new role's area; old portal is refused.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J17.02 ★	**Admin**	Block (suspend) the user.	Status Blocked.	User: next request is refused with a plain message; cannot sign in or act.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J17.03 ★	**Admin**	Unblock.	Status Active.	User: can sign in and act again.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J17.04	**Admin**	Export Users / Revenue / All from Reports.	CSV downloads; totals equal the dashboard.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J17.U01	**Admin blocks themselves**	Admin tries to block or demote their own account.	"You cannot block your own account or remove your own admin role. Ask another admin."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J17.U02	**Approve a weak profile**	Admin approves a gaushala or temple whose profile fails the quality check.	"Profile is not good enough to approve" with the reasons.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
J17.U03	**Add / delete user buttons**	Press Add user or Delete user if they are visible.	Known gap: these do nothing (stubs). Record what the screen says.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J17.U04	**Force sign-out**	Admin forces a sign-out of the QA user.	The user is asked to sign in again on the next action.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J18 Subscriptions and plans

Roles involved	Providers, Admin.
Testable today?	YES (paid plans show Opens soon)
Purpose	Providers must see honest plan information and admin must see the same counts.
Before you start	Any provider signed in.
Data to create	None.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J18.01 ★	**Provider**	Open Subscription. Expected paid prices: pandit 999 / 2999, astrologer 799 / 1999, store 1499 / 3999, wellness 699, temple 4999 a month.	Free plan Active; paid plans disabled "Opens soon" with a calm notice; no technical words.	Admin /admin/subscriptions: active counts include this provider on FREE.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J18.02	**Provider**	Press Cancel plan on Free, then reactivate if offered.	Clear confirmation; state persists.	Admin counts update.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

J19 Notifications and emails matrix

There is no notification-centre page in the web app, so look on the page, in email, in push and in WhatsApp. Fill this in as you go. For each event write whether the other side received an email / WhatsApp / on-screen notice and how long it took. Email delivery limits are in 2.3: write "none in 10 minutes", do not log it as FAIL on its own.

Event	Who should be told	On-screen	Email	Time taken	Notes
Booking paid	Devotee (confirmation), Pandit/Temple (new request)				
Pandit accepts	Devotee, Temple				
Puja started / completed	Devotee				
Video uploaded	Devotee				
Refund approved / declined	Devotee				
Payout completed	Provider				
Invitation sent / withdrawn	Pandit				
Consultation booked / completed	Astrologer, Devotee				
Order status changes	Devotee				
Donation received	Devotee (receipt), Gaushala				
Ticket reply	Ticket owner				
KYC verified / rejected	Provider				

J20 Permission and privacy matrix (what must NOT be possible)

For each row sign in as the role in the first column and try to open or do the thing in the second column by pasting the address or pressing the button. Expected: refused, sent away or "not found" with no data. Any exception that shows data or changes data is S1.

Signed in as	Try to	Expected	Result
Devotee	Open /admin, /priest, /temple-portal, /astrologer-portal, /wellness-portal, /gaushala-portal, /store-admin	Refused each time	☐ PASS ☐ FAIL
Devotee 2	Open Devotee 1's booking, ticket, order, message thread, donation receipt by address	Not found or refused	☐ PASS ☐ FAIL
Pandit	Open another pandit's booking; open /admin; see a devotee's phone/email before accepting	Refused; no personal data before acceptance	☐ PASS ☐ FAIL
Temple manager	Open another temple's bookings, payouts or donations	Refused	☐ PASS ☐ FAIL
Astrologer / Instructor / Gaushala / Store	Open another provider's records and each other's portals	Refused	☐ PASS ☐ FAIL
Store owner	Open another seller's product edit page	Refused	☐ PASS ☐ FAIL
Any non-admin	Call an admin export or admin page address directly	Refused	☐ PASS ☐ FAIL
Signed out	Open any portal, any booking, any order address	Sent to sign-in; no data	☐ PASS ☐ FAIL
Blocked user	Press any action after admin blocks them	Refused with a plain message	☐ PASS ☐ FAIL
Any	Type text with HTML/script in names, messages, reviews, ticket text	Shown as plain text everywhere (both sides)	☐ PASS ☐ FAIL

J21 Cross-cutting checks for every journey

Check	How	Expected
Phone layout (390 px wide)	Repeat the starred steps of J01, J09, J10 on a phone or a narrowed window.	No horizontal page scroll; primary buttons fully visible; tables scroll inside their card; text readable.
Languages	Switch the site to Hindi (and Marathi) and run the first three steps of J01.	Navigation and key labels translated or cleanly in English; amounts and dates still correct; no broken characters.
Speed	Note the time of the main page of each role after sign-in.	Up to about 4-7 s after sign-in is known; log only if above 15 s or blank.
Back / forward / refresh	On each journey press Back, Forward, F5 in the middle of a step.	No duplicate actions, no loss of money or data, no blank screen.
Slow or lost network	Switch Wi-Fi off during a save, then on.	Clear failure and retry; no false success.
Keyboard and focus	Tab through a form and press Enter to submit.	Order is logical; buttons reachable; focus visible.
Console / errors	Keep the browser developer console open on a failing step.	Copy the first red error into the bug entry.
Dates and money format	Compare every date and amount between the two sides.	IST everywhere; rupee sign and thousands separators consistent.

J22 Quick regression checklist (recently fixed items)

Run this once at the end of every test cycle. These were reported earlier and fixed; confirm they still hold.

#	Check	Expected	Result
1	/temples, /astrology, /pujas/book?slug=marriage, /darshan/kedarnath load	No error page, no redirect loop; "marriage" says "We don't offer that puja"	☐ PASS ☐ FAIL
2	Devotee dashboard after sign-in	No "could not verify your sign-in" banner; tiles Consultations, Settings, Subscriptions, Share	☐ PASS ☐ FAIL
3	Profile: change city, gotra and language and press Save Changes; reload	Saved message; values persist	☐ PASS ☐ FAIL
4	Gaushala donation form at 1100 with a phone number	No wrong minimum or phone-required message	☐ PASS ☐ FAIL
5	/upgrade and all provider Subscription pages	Paid plans "Opens soon"; no technical wording	☐ PASS ☐ FAIL
6	/consultation	Goes to /astrology	☐ PASS ☐ FAIL
7	Priest Bookings tabs Pending / Accepted / In Progress / Completed	Switch instantly, no long spinner	☐ PASS ☐ FAIL
8	Temple manager Add Puja assigned-priest list	Roster pandits only; no "not on your temple roster" error	☐ PASS ☐ FAIL
9	Temple darshan schedule form (YouTube)	Only link/id required; hints visible	☐ PASS ☐ FAIL
10	Wellness roster "View roster"	Students or "No students enrolled yet"; no raw route text	☐ PASS ☐ FAIL
11	Admin Reports, Waitlist, Outreach page (do not run), Metrics	Readable wording; waitlist chart shows bars; no "Sprint 4+ stub"	☐ PASS ☐ FAIL
12	Gurukul account sign-in	Lands on /gurukul-portal	☐ PASS ☐ FAIL
13	Yatra inquiry review step	Reads as an inquiry; no "pay"; readable date	☐ PASS ☐ FAIL
14	Phone width on admin Reports and Users	No clipped buttons or pager	☐ PASS ☐ FAIL

J23 Account deletion and privacy requests

Roles involved	Any user (use a throw-away QA account).
Testable today?	YES (destructive: only on an account you made for this test)
Purpose	A person must be told what blocks deletion, get a grace period, be able to cancel it, and receive a clear confirmation.
Before you start	A new devotee account with no bookings, and a second one with an open booking or order.
Data to create	None.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
J23.01 ★	**User**	Open /account/privacy and start the deletion request. Read the warnings.	Eligibility is checked first. A clean account can continue; a wallet balance gives a "forfeit" warning.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J23.02 ★	**User**	Enter the confirmation code from the email (try a wrong code, an expired code, then the right one).	"Incorrect confirmation code."; "That confirmation code has expired. Request a new one."; "Too many incorrect codes. Request a new one."	Admin Users shows the account as pending deletion ◆ confirm.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J23.03	**User**	Check the status page and cancel the request inside the 30-day grace period.	Status shows the date; cancel restores the account.	Admin sees it active again.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
J23.U01	**Blocked deletion**	Try with an open booking, an unfulfilled store order, an unsettled earning, a payout in flight or a scheduled session.	Deletion is refused with the specific reason (booking in flight, order in flight, unsettled earnings, payout in flight, session scheduled).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J23.U02	**Only admin**	The only admin tries to delete their account.	"You are the only active administrator..." - refused.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
J23.U03	**After deletion**	Try to sign in to a deleted account.	"This account has been deleted and cannot be restored."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Appendix A Status words (what each side calls the same thing)

Booking status	Meaning	Who sets it	Devotee sees	Pandit sees
Pending payment	Created, not paid	Devotee (creates)	Complete payment / Edit details	Nothing
Confirmed	Paid, waiting for a pandit	Payment	Confirmed / Waiting for a pandit	Offer in Offers, tab Pending
Priest assigned	A pandit accepted	Pandit (or Admin)	Priest assigned + name	Tab Accepted
In progress	Ritual under way	Pandit	In progress	Tab In Progress
Video uploaded	Pandit pressed Mark Complete (needs a video first; passes through Completed)	Pandit	Video to watch, confirm receipt, review	Tab Completed
Completed	Only shown again if admin flags the proof	System/Admin	Completed	Upload Video again
Delivered	Devotee confirmed receipt	Devotee	Delivered	Delivered
Cancelled / Refunded	Cancelled (a refund request is a marker on Cancelled, not a separate status); Refunded only after a full refund	Devotee / Admin / System	Cancelled, refund requested, Refunded	Removed or Cancelled

Numbers: booking BS-YYYYMMDD-XXXXX; donation receipt DR-YYYYMMDD-XXXX. Money: price in rupees; NRI devotees see a dollar reference but are charged in rupees; the default split is 80 percent provider and 20 percent platform; provider earnings are held until the service is performed and proved; payouts need verified KYC; cash on delivery creates no commission.

Appendix B Portal address book

Role	Main addresses
Devotee	/dashboard, /profile, /profile/consultations, /pujas, /store, /gaushala, /astrology, /wellness, /yatra, /support, /refer, /account/subscriptions
Pandit	/priest, /priest/offers, /priest/bookings, /priest/services, /priest/reviews, /priest/payouts, /priest/messages, /priest/subscription, /priest/profile
Temple manager	/temple-portal (bookings, pujas, priests, schedule, darshan, donations, messages, payouts, subscription)
Astrologer	/astrologer-portal (consultations, profile, availability, earnings, messages, subscription)
Wellness instructor	/wellness-portal (sessions, students, profile, earnings, messages, subscription)
Gaushala manager	/gaushala-portal (profile, cows, donations, volunteers, messages)
Store owner	/store-admin (products, orders, revenue, reviews, messages)
Gurukul manager	/gurukul-portal
Admin	/admin (users, bookings, approvals, kyc, refunds, payouts, commissions, revenue, reports, metrics, temples, consultations, subscriptions, ratings, leads, waitlist, outreach, agents, support, settings)
