India's devotional super-app.

Ten revenue rails. One billion Hindus. Built and live at darshya.online.

Puja w/ video proof | Live darshan | Astrology · Kundli | Yatra · Wellness | Store · Gurukul · SaaS

A billion Hindus open ten apps for what should be one ritual life.

TODAY

Sri Mandir for puja. AstroSage for kundli. MakeMyTrip for Char Dham. Amazon for prasad. WhatsApp uncle for muhurat.

TOMORROW

One app. Daily darshan to sankalp, kundli to yatra, gaushala seva to 80G — every devotional act, one ledger, one identity.

THE RAIL

Darshya is the devotional OS — already shipping ten revenue lanes, 500+ programmatic landing pages, 537 passing API tests. Zero capital raised.

THE COMPETITOR MAP

APP	LANES	STUCK AT
Sri Mandir	Puja, darshan	2 lanes · ad-funded
AstroSage	Kundli, horoscope	1 lane · ₹99/min
Utsav	Puja booking	1 lane · trustee-led
MakeMyTrip	Yatra packages	1 lane · commodity
Amazon Prasad	Commerce	1 lane · no ritual context
Darshya	10 lanes · one identity	Compounding CLV

WHY SUPER-APP WINS HERE

1. **Devotional life is daily.** Panchang opens 365 days/yr. That's a retention surface no single-feature app can match.

2. **One event triggers many.** Birth → kundli → naming → mundan → first-puja → gotra → marriage muhurat. Cross-sell is built-in.

3. **Trust transfers.** A user who books one puja with us trusts us with the kundli, the yatra, the 80G receipt, the prasad delivery.

4. **NRI guilt-spend compounds.** A US-based devotee paying $169 for a Rudrabhishek will pay $299 for Char Dham, $89 for monthly gaushala, $49 for a kundli.

5. **India has no WeChat for dharma.** Whoever lays the rail first owns the next decade.

Every devotional act has a price. We monetise all ten.

Status reflects production code on darshya.online · 537/537 API tests green · CF Pages + Render + Supabase + Razorpay + Stripe wired.

Emotion · Devotion + proof

"Did the puja actually happen?" Every booking ships a video.

WHY IT WINS

Sri Mandir books pujas. Trustees post a photo. Devotee never knows. We mandate video proof — sankalp clip, abhishekam clip, prasad dispatch — uploaded to the booking before payout releases to the priest. The trust gap closes. The repeat rate ramps.

UNIT PRICE	NRI PRICE	TAKE
₹1,501	$169	20–40%
Rudrabhishek base · INR	Same SKU · 9× lift	Per-temple commission

CATALOGUE

DIFFERENTIATOR

Video proof mandatory. Priest payout gated on upload.

80G receipt automatic. PAN-stamped, IT-section compliant.

Sankalp builder. Gotra + nakshatra + city auto-resolved.

NRI dual-currency. USD/EUR/GBP at checkout.

Cancel up to 24h. Full refund — non-negotiable rule.

WHY DEVOTEE PAYS AGAIN

Every booking ends with a 90-sec WhatsApp video. That video is shared with family. Family asks "who did this?" The next booking is inbound.

Emotion · Daily presence

A devotee opens the app every morning. That's the only metric that matters.

WHY IT WINS

Live darshan is not a feature — it's the daily wake-up. Mangal Aarti at Banke Bihari opens at 4 AM. A devotee in New Jersey misses it by 9.5 hrs. The DVR + scheduled-replay turns time-zone arbitrage into daily retention. Once they're in the app at 6 AM for aarti, every other lane becomes one tap away.

STREAMS	DAILY SESSIONS	CPM
25+	365×	₹3–₹8
IVS HLS · YouTube fallback	Per-user retention surface	+ temple sponsor seat

MONETISATION STACK

Pre-roll devotional ad · temple sponsor seat (₹50k/mo per temple shown as "Brought to you by") · push-to-puja-CTA overlay (20% click → puja booking · attributable revenue) · NRI replay tier (free → $4.99/mo for DVR + 4K).

DIFFERENTIATOR

No login wall. Darshan is free, forever. Trust before transaction.

Aarti countdown. Sri Mandir doesn't show "next aarti in 12 min." We do.

Sponsor → booking attribution. Temple sponsor sees rupees back, not impressions.

Adjacent CTA. "Offer a flower to this deity" → ₹51 micro-tx → 80G receipt.

Emotion · Anxiety-relief

When the mother is worried about the daughter's marriage, we are the only number she dials.

WHY IT WINS

AstroSage owns this lane today — but only as a calculator. We've built the funnel: free kundli → matched dosha report → muhurat selector → "talk to verified astrologer ₹99/min" → if Manglik flagged → "book pariharam puja at Ujjain" (cross-lane to Lane 1). One anxiety event → 4 transactions.

Emotion · Guilt · Legacy · Love

An NRI son in Texas, on his mother's birthday, books a Lakshmi puja at Kalighat for her.

WHY IT WINS

32 million NRIs. Average $3.2k discretionary annual devotional spend. Currently routed through "uncle who knows a pandit." We collapse the friction: select temple → select puja → recipient WhatsApp → USD payment → video proof to both phones → 80G receipt to whoever needs it. Same SKU as domestic. 9–10× the price. They pay because the alternative is calling four uncles and waiting two weeks.

TAM	SKU LIFT	CLV / NRI
$13B	**9–10×**	**$1,200**
32M NRIs · $400 avg	vs domestic same puja	8 transactions / yr

LIVE NOW

Stripe USD/EUR/GBP checkout · Geo-IP currency switch · WhatsApp delivery to recipient · 80G receipt to sender PAN · 5 i18n landings (en/hi/ta/te/bn/mr) for diaspora segmentation · `/gift` + `/nri` dedicated funnels.

WHY THIS IS THE KILLER LANE

Guilt compounds. A son who pays once at Diwali pays again at his father's shraadh, his nephew's mundan, his daughter's first kundli.

Currency arbitrage is permanent. Domestic devotee pays ₹1,501 — same SKU to NRI is $169 = ₹14,200. Same priest, same temple, same video.

No competitor. Sri Mandir refuses USD. AstroSage has no temples. MakeMyTrip has no priests. Owned lane.

Emotion · Bucket-list dharma

Every Hindu has a Char Dham in their lifetime list. We sell it with priest, hotel, and aarti pass bundled.

WHY IT WINS

MakeMyTrip sells hotels. IRCTC sells trains. Neither sells the actual ritual. We bundle: Kedarnath 7-day package = Dehradun pickup + helicopter day + lodge + senior-citizen palki + priority darshan pass + sankalp at Yamunotri + farewell aarti at Devprayag. ₹65k. We take ₹8k. Devotee never thinks about it again.

DIFFERENTIATOR

Ritual-first, hotel-second. The puja is the centerpiece, not the hotel star rating.

Senior-citizen mode. Palki, helicopter, doctor-on-call wired into pkg.

Cross-sells. Yatra → on-site puja → 80G prasad-sponsorship → repeat next yr.

NRI Char Dham. $2,499 fully-bundled. Same trip, 4× margin.

Emotion · Inner peace · Burnout escape

A burned-out 32-year-old PM in Bengaluru searches "10-day Vipassana." We are the booking surface.

WHY IT WINS

26 Vipassana centres in India. None have a real booking UX. Goenka centres run on a 1990s php form. Adjacency: yoga retreats, panchakarma, ayurvedic clinics, sound healing — a $4B/yr Indian wellness market with no online aggregator that understands the spiritual side. We do, because every customer is already in our app for darshan.

ADJACENCY

Yoga retreats · Panchakarma clinics · Ayurvedic consult · Sound healing · Pranic energy work · Silent meditation. NRI premium tier: $1,200 panchakarma in Kerala vs $4,500 equivalent in California.

WHY THIS LANE IS UNDERVALUED

No competitor. Cure.fit doesn't touch spiritual wellness. Sri Mandir doesn't touch wellness at all.

Same user, different mood. Devotee at 6 AM aarti is the same person at 8 PM searching "burnout cure."

NRI 4× margin again. Dollar-pricing for ashram retreats works.

Emotion · Compassion · Karma-tax

Every devotee owes karma. We turn it into a monthly subscription with a tax receipt.

WHY IT WINS

Gau-seva is the highest punya act in Sanatana Dharma. Devotees give cash to roadside cows. We give them: adopt-a-cow by name + daily photo + 80G receipt every month + recurring auto-debit. Donation becomes identity ("I sponsor Gauri at Pathmeda since 2024"). Recurring subscription replaces one-off guilt-spend.

MONTHLY	NRI MONTHLY	RETENTION
₹500	$89	14 mo
Adopt-a-cow base	15× lift, recurring	Avg subscriber life

ADJACENT RECURRING DONATIONS

Daily diya at Kashi Vishwanath (₹201/mo) · Annadanam at Tirupati (₹1,001/mo) · Prasad sponsorship at home temple (₹501/mo) · Vedapatasala scholarship (₹501/mo).

WHY THIS IS A SAAS, NOT A CHARITY

Auto-debit + 80G. Subscription, not donation. Tax-deductible.

Named-cow identity. Devotee shares photo on WhatsApp → social proof loop.

Compounding karma. A subscriber who pays for 14 months stays for 5 years.

NRI guilt-tax. $89/mo · 32M NRIs · 5% adoption = $1.7B/yr ceiling.

Emotion · Sacred commerce · Object of faith

Amazon sells rudraksha as fashion jewellery. We sell it as initiated, certified, mantra-energised.

WHY IT WINS

A 5-mukhi rudraksha on Amazon is ₹299 with zero context. The same bead, energised on Shivratri at Trimbakeshwar with full abhishekam, ships from us at ₹1,499 with a video of the energisation. Same physical product. 5× the price. Margin is in the meaning. 18 rudraksha variants, 569 SKUs live, drop-ship from verified temple stores.

Mantra-energised. Video of energisation ships with every SKU.

Temple-verified origin. No drop-ship roulette.

Prasad from 25 temples. Tirupati laddu, Ujjain laddu, Kalighat prasad — direct.

Astrology-driven recs. Your kundli says Manglik → rudraksha 11-mukhi recommended.

Emotion · Aspiration · Cultural identity

"My daughter doesn't know Sanskrit. I want her to learn from a real gurukul, not a YouTube channel."

COMPOUNDING EFFECT

Every page indexed today brings traffic tomorrow, next year, forever. Sri Mandir spends $40 per install on Meta. We spend $0 and capture the user when they search "Pradosh vrat 2026" or "Manglik remedies" — the highest-intent moment in their life.

MOAT TYPE

Search-index dominance compounds and cannot be bought. A competitor with $50M to spend cannot un-index our 500 pages or out-write 24 daily agents writing for 3 years. The moat thickens daily, autonomously, while we sleep.
