DARSHYA
Rs 1 Live Payment Test Runbook

Real Rs 1 payments, real refunds, real receipts: every paid flow and every role, tested end to end and from both sides.

Website	https://darshya.online (live PRODUCTION). Payments in this runbook are REAL: about Rs 1 each, charged to the tester's own UPI or card.
Build under test	Web and API with the QA payer allowlist (PR #372). Items created 4 Nov 2026.
Who uses it	The owner (Part 1, one time) and the testing resource (Parts 2 to 6).
Companion	Two-Way End-to-End Manual Test Pack v1.1 (what to check on every screen). This runbook adds the money: exact items, exact amounts, exact receipts and refunds.
Hand back	Part 7 evidence log with every row filled, the Razorpay payment ids and receipt numbers, and a Bug Report entry for every FAIL or PARTIAL.
Owner contact	_____

How a Rs 1 test works
Each flow uses a tiny-priced dummy item that the test provider created (Rs 1). The tester account is on a short "QA payer" list kept in the server settings: for that account only, the platform fee, prasad fee, delivery fee and the minimum donation/consultation amounts are waived, so the amount charged is the item price, Rs 1.
Everyone else on the site still pays normal prices. Nothing is faked: the payment goes through the real gateway, the commission and payout ledgers are written, the PDF receipt is generated and emailed, and refunds go back through the gateway.

Contents

Contents 2

Part 1 Owner set-up (one time, about 20 minutes) 3

1.1 Razorpay: live keys and the webhook . . . 3

1.2 Testers and the QA payer list . . . 4

Part 2 The Rs 1 dummy items (already created) 5

2.1 Expected money for every Rs 1 flow (use this to reconcile) . . . 5

Part 3 The flows, step by step 7

F1 Puja booking, open to any pandit: pay Rs 1, perform, video proof, receipt, review, earnings 8

F2 Puja booking with prasad delivery, assigned to one pandit 11

F3 Cancel and refund of a Rs 1 puja: full refund, 75 paise refund, and the 24 hour rule 13

F4 Astrology consultation: pay Rs 1 for 1 minute, session, chat, completion, rating, refund 15

F5 Wellness session: enrol for Rs 1, room link, attendance, earnings, cancellations and refunds 17

F6 Store order: pay Rs 1 online, fulfilment, receipt, cancel and refund, and cash on delivery 19

F7 Gaushala donation: pay Rs 1, numbered receipt, manager view, admin transfer 21

F8 Temple donation: pay Rs 1, receipt, temple settlement 23

F9 Provider payout request: earn Rs 0.80, KYC, request, admin pays, provider sees Paid out 24

F10 Temple share and settlement of the puja share (Rs 0.05) 26

Part 4 Test calendar: what to book when 27

Part 5 Receipts, GST and the books 28

5.1 What each receipt says today . . . 28

5.2 Tester checks on every receipt (write the answers in Part 7) . . . 28

5.3 GST and the books (for the owner and the CA) . . . 28

Part 6 Clean-up and switching the test mode off 29

Part 7 Evidence log (one row per payment or refund) 30

Sign-off . . . 30

Part 1 Owner set-up (one time, about 20 minutes)

Only the owner can do these steps. Nothing below needs code. Do them in order; the testing resource cannot start until step 6 passes.

1.1 Razorpay: live keys and the webhook

Step	Where	What to do	Check
1	Razorpay dashboard (switch to LIVE mode, top-left toggle)	Settings > API Keys > Generate Live Key. Copy the Key Id (starts rzp_live_) and the Key Secret (shown once).	Key Id starts with rzp_live_, not rzp_test_.
2	Razorpay dashboard > Settings > Webhooks > Add new webhook	URL: https://api.darshya.online/api/v1/payments/webhook Secret: make up a long random string and keep it (this becomes RAZORPAY_WEBHOOK_SECRET). Active events: payment.captured, payment.failed, refund.created, refund.processed.	Webhook shows Active.
3	Render dashboard > service bhaktisetu-api > Environment	Add or edit these three variables exactly: RAZORPAY_KEY_ID = rzp_live_xxxxxxxx RAZORPAY_KEY_SECRET = (the secret from step 1) RAZORPAY_WEBHOOK_SECRET = (the secret you invented in step 2) A key and secret from different pairs is exactly what produced the earlier "Authentication failed" error: copy both from the same screen.	Variables saved. No other service needs them (the website reads the public key id from the API).
4	Render > bhaktisetu-api > Environment	Add QA_PAYER_EMAILS = test.devotee@example.com, <each tester email that will PAY> (comma separated, case does not matter). List every account that pays; accounts that only receive money (pandit, temple, astrologer, instructor, store owner, gaushala) do not need to be listed.	Keep this list short. Remove the variable when testing is over (Part 6).
5	Render > bhaktisetu-api	Press Manual Deploy > Restart service (or Deploy latest commit) so the new variables are read. Wait until the service shows Live.	https://api.darshya.online/health answers {"status":"ok"}.
6	Admin check (ask the engineer, or do it yourself signed in as admin)	Open https://api.darshya.online/api/v1/admin/diagnostics/razorpay?probe=order in the browser while signed in as admin (or ask the engineer to run it). It reports the mode (live) and makes ONE Rs 1 test order.	Result shows mode "live", no "Authentication failed", and an order id. If it fails, stop and send the message to the engineer.
7	Email	Receipts are emailed as PDFs. Confirm the sending domain/key (RESEND settings) works by sending yourself a test (ask the engineer). If emails do not arrive, receipt steps are BLOCKED but money steps still work.	A test email reaches an inbox.

Money notes for the owner
Razorpay charges its normal fee on each Rs 1 payment and normally does not give the fee back on a refund; the exact amounts appear in the Razorpay dashboard. These Rs 1 payments and refunds also show up in your books: tell your CA that they are test transactions (see Part 5).
Refunds go back to the tester's original UPI/card. Timing depends on the bank (the site tells customers 5 to 7 business days).
Never send the key secret or the webhook secret to the testing resource, in chat or in a screenshot.

1.2 Testers and the QA payer list

Who	Email	Must be in QA_PAYER_EMAILS?	Why
Devotee test account	test.devotee@example.com	YES	Pays for puja, consultation, wellness, store order and donations.
Tester's own devotee sign-up	(tester's email alias)	YES, if they pay with their own account	Needed for the first-time-user checks and for tests that need two devotees.
Pandit, temple, astrologer, instructor, store owner, gaushala, gurukul, admin test accounts	test.<role>@example.com	NO	They receive money and act on it; they do not pay.

The tester signs in as a listed account and must see a yellow pill on every page: "QA pricing active: fees waived for this tester account". No pill means the email is not on the list or the service was not restarted: stop and tell the owner. The mobile app does not show the pill; test on the website.

Part 2 The Rs 1 dummy items (already created)

These items were created on 4 Nov 2026 by the test provider accounts. Providers can change or switch them off in their own portal. Prices are what the devotee pays: nothing is added on top for a listed tester.

Flow	Dummy item	Created by / where	Price	Where the devotee finds it
Puja, open to any pandit	Ganesh Puja at Test Shri Ganesh Mandir Pune	test.temple > /temple-portal/pujas	Rs 1 (slots 06:00, 10:00, 18:00; 5 per slot)	/pujas > Ganesh Puja > Book > choose the test temple
Puja, assigned to one pandit (and prasad test)	Rudrabhishek at Test Shri Ganesh Mandir Pune, assigned to the test pandit	test.temple > /temple-portal/pujas; pandit accepted the temple roster invite	Rs 1; prasad add-on Rs 0 extra	/pujas > Rudrabhishek > Book > choose the test temple
Astrology consultation	Test Jyotish Acharya	test.astrologer > /astrologer-portal/profile (rate), online ON	Rs 1 per minute; book 1 minute = Rs 1	/astrology > the test astrologer > Book
Wellness session	QA-Rs1 Yoga (3 days ahead, 07:00 IST, 30 min) and QA-Rs1 Meditation (10 days ahead, 18:00 IST)	test.wellness > /wellness-portal/sessions	Rs 1 each, capacity 10	/wellness/classes
Store order	QA-Rs1 Diya, stock 100	test.store > /store-admin/products	Rs 1; delivery Rs 0 for a listed tester	/store > QA-Rs1 Diya
Gaushala donation	Any gaushala that is Live on Darshya, for example Test Gau Seva Trust Pune	test.gaushala profile	Rs 1 (custom amount; minimum is Rs 1 for a listed tester, Rs 101 for everyone else)	/gaushala > the gaushala > Donate
Temple donation	Test Shri Ganesh Mandir Pune (verified, has an approved manager)	test.temple	Rs 1	/donations?causeKind=temple or the temple page > Donate

If an item is missing or the price is not Rs 1, tell the owner before you pay anything. If the amount in the payment pop-up is not exactly what the table says, STOP and do not pay: close the pop-up and report it as S1 with a screenshot.

Flows that cannot be tested at Rs 1
Paid subscription plans (Rs 799 and up): they show "Opens soon" and cannot be bought. Test only that they read honestly.
Yatra: an inquiry only, no payment. Marriage and home-puja pages: inquiry forms with an 18% GST estimate line on a quote; nothing is charged.
Cancelling a confirmed puja inside 24 hours is not allowed for devotees, so every refund test must be booked ahead (Part 4).
The automatic weekly provider payout (needs Rs 100). Use the provider's own payout request instead (Part 3, flow F9).

2.1 Expected money for every Rs 1 flow (use this to reconcile)

Flow	Customer pays	Provider earns	Platform keeps	Temple / other	Becomes payable when
Puja booking	Rs 1.00 (puja Rs 1 + fees Rs 0)	Pandit Rs 0.80 (80%)	Rs 0.20 (20%)	Temple share Rs 0.05 (5% of puja price), a separate row	Video proof uploaded and puja completed (status Video uploaded or Delivered). Shown as Upcoming before.
Astrology consultation (1 minute)	Rs 1.00	Astrologer Rs 0.80	Rs 0.20	-	Consultation completed.
Wellness session	Rs 1.00	Instructor Rs 0.80	Rs 0.20 (default)	-	Session completed or its time has passed.
Store order (online)	Rs 1.00 (delivery Rs 0)	Seller Rs 0.80 (commission 20% default)	Rs 0.20	-	When the order is paid and fulfilled; cash on delivery earns NO commission.

Flow	Customer pays	Provider earns	Platform keeps	Temple / other	Becomes payable when
Gaushala donation	Rs 1.00	Gaushala is owed Rs 1.00 (no platform fee)	Rs 0	Receipt DR-YYYYMMDD-XXXX	Admin records a bank transfer (manual).
Temple donation	Rs 1.00	Temple is owed Rs 1.00	Rs 0	Receipt DR-YYYYMMDD-XXXX	Admin records a transfer in Temple settlements.

Rounding: money is kept to 2 decimals; a refund is sent to the gateway in whole paise. Razorpay's own fee is not part of this table and is not shown to customers or providers.

Part 3 The flows, step by step

Two screens open at all times (two different browsers; never two tabs of one browser). Write down the booking/order/receipt number, the exact IST time and the Razorpay payment id (the pop-up success screen or the UPI app shows it; the owner can see it in the Razorpay dashboard) for every payment. Payment steps are marked [Rs 1].

Before every payment
The yellow QA pricing pill is visible. The total on the page is exactly the table amount (Rs 1.00 for pujas, consultation, wellness, store and donations). In the Razorpay pop-up the amount is Rs 1.00. Anything else: do NOT pay; screenshot and report S1.
Use your own UPI or card. Do not repeat a payment to "see what happens": each one is a real charge.

F1 Puja booking, open to any pandit: pay Rs 1, perform, video proof, receipt, review, earnings

Roles involved	Devotee (A), Pandit (B), Temple manager (C), Admin (D).
Testable today?	YES after Part 1
Purpose	The full life of one booking with a real Rs 1 payment. Takes about 3-4 hours of elapsed time because the pandit can only start 2 hours before the slot and can only complete after the slot starts.
Before you start	QA pricing pill visible for the devotee. Pandit on duty (already set). Temple manager adds a slot about 3 hours from now (step 1) so you do not wait for the next normal slot.
Data to create	Ganesh Puja at Test Shri Ganesh Mandir Pune, sankalp QA-Tester Sharma, gotra Kashyap, nakshatra Rohini.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F1.01 ★	**Temple manager**	/temple-portal/pujas: edit Ganesh Puja and add one extra slot at roughly (now + 3 hours) in 24-hour IST time, for example 15:30. Save.	Offering saved with the new slot; price still Rs 1.	Devotee: the new slot is offered for today.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.02 ★	**Devotee**	Open /pujas > Ganesh Puja > Book. Choose the test temple, today, the new slot. Fill sankalp. Tick terms. Do NOT tick prasad.	Review shows Puja Rs 1.00, platform fee Rs 0, total Rs 1.00. QA pill visible.	None yet.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.03 ★	**Devotee**	[Rs 1] Press Pay and complete the payment in the pop-up.	Success page; booking number BS-YYYYMMDD-XXXXX; status Confirmed / Waiting for a pandit; the amount paid is Rs 1.00. PDF receipt email "Darshya payment receipt" arrives (Part 5).	Owner: Razorpay shows a captured payment of Rs 1.00 for this order. Admin /admin/bookings "Waiting for a pandit" lists it with Rs 1. Temple: booking appears in /temple-portal/bookings.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.04 ★	**Pandit**	/priest/offers: open the booking, check devotee details are hidden, then Accept.	Booking moves to Accepted; devotee details and sankalp are now visible.	Devotee: status Priest assigned with the pandit's name. Admin: Assigned tab. Temple: priest assigned.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.05	**Devotee and Pandit**	Look for a chat thread for this booking in /messages and /priest/messages; if it exists send one message each way.	Record exactly what you see (a thread may not exist yet: see the Two-Way Pack J01).	Other side sees the message and an unread dot.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.06 ★	**Pandit**	More than 2 hours before the slot press Start Puja.	Disabled/locked: "You can start this puja from H:MM AM IST on ..., 2 hours before the scheduled time."	No change on any side.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F1.07 ★	**Pandit**	From 2 hours before the slot press Start Puja, then upload a short video (.mp4/.webm/.mov under 50 MB).	Status In progress; upload succeeds and plays; "Mark Complete" now appears.	Devotee: In progress. Admin: In progress. Temple: in progress.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.08 ★	**Pandit**	After the slot time has started press Mark Complete (try it once before the slot starts: it must be refused).	Before: "This puja cannot be marked complete before it starts, at ...". After: status Video uploaded.	Devotee: "Puja completed / Video proof ready"; the video plays and can be downloaded. Admin and Temple show the new status.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.09 ★	**Devotee**	Watch the video. Press "I have received my recording". Then leave a 5 star review "QA great seva".	Status Delivered; review saved once (a second review is refused).	Pandit: Delivered; /priest/reviews shows the review.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.10 ★	**Admin**	/admin/commissions and /admin/revenue for this booking.	One commission row: provider earning Rs 0.80, platform rate 20%. Temple payout row Rs 0.05.	Pandit: earnings show Rs 0.80 under Ready to withdraw (it was Upcoming until the video). Temple: /temple-portal/payouts shows Rs 0.05 payable.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.11 ★	**Devotee**	Open the receipt email and download the PDF.	See Part 5 for the exact checklist (amount Rs 1.00, no tax line, booking number, names).	-	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios (payment specific)

ID	Scenario	How to test it (both screens)	Expected result	Result
F1.U01	**Payment cancelled in the pop-up**	Open the pop-up, close it (or press back in the UPI app) without paying.	Booking stays Pending payment; the page says nothing was charged; "Complete payment" reopens the pop-up; nothing appears for the pandit, temple or admin as paid; no money leaves the account.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.U02	**Wrong UPI PIN / failed payment**	Fail the payment once on purpose (wrong PIN).	Clear failure message, no charge; booking still Pending payment; a failed payment event is recorded and the retry works.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.U03	**Pay twice**	After success press Back and try Pay again, and open "Complete payment" on the paid booking.	Refused: the booking is already paid ("nothing to pay"); only one charge in the UPI app and in Razorpay.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
F1.U04	**Success page refresh**	Refresh the success page five times.	One booking, one payment, one commission row, one receipt email.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.U05	**Payment succeeds but the browser closes**	Pay, then close the browser before the success page.	Reopen My Bookings: the booking is Confirmed (the gateway webhook confirms it); exactly one booking.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.U06	**Fees really waived only for you**	Open the same wizard in a private window signed out, then signed in as a non-listed account (the pandit).	Non-listed accounts see the normal total (Rs 1 + Rs 51 = Rs 52). Never pay in that window. This proves the waiver is not public.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F1.U07	**Another devotee cannot see it**	Second devotee opens the booking address.	Not found / refused; no data.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F2 Puja booking with prasad delivery, assigned to one pandit

Roles involved	Devotee (A), Pandit (B), Temple manager (C), Admin (D).
Testable today?	YES after Part 1
Purpose	Check the prasad add-on (Rs 0 extra for a listed tester), the India address rule and a booking that is assigned to a named pandit.
Before you start	Same as F1. Rudrabhishek is assigned to the test pandit, who is on the temple roster.
Data to create	Rudrabhishek, tomorrow or later, any slot; an Indian delivery address with a 6-digit PIN.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F2.01 ★	**Devotee**	Book Rudrabhishek at the test temple. On the Review step tick Prasad delivery and enter a sample Indian address.	Prasad line shows Rs 0 for a listed tester; total Rs 1.00. Address required: leaving it blank gives "A delivery address is required when prasad delivery is selected."	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F2.02 ★	**Devotee**	[Rs 1] Pay.	Confirmed; booking number; Rs 1.00; receipt email.	Pandit: the booking is already assigned to him (it appears under Bookings, not only in open requests). Admin: Assigned tab. Temple: priest assigned.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F2.03 ★	**Pandit**	Open the booking.	Shows the devotee, sankalp and the prasad delivery address.	Devotee: sees the pandit's name.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F2.04	**Pandit and Devotee**	After the puja (as in F1: start 2 hours before, upload video, complete) check the prasad information on the booking page.	Record whether a prasad tracking id or status is shown and who sets it (◆ confirm with the owner).	Devotee sees the same prasad status.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
F2.U01	**Non-India address**	Choose a prasad address in another country.	Refused: prasad is India only.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F2.U02	**Edit after payment**	Try to change the address after paying.	Record whether it is allowed; the pandit must see the current address.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F3 Cancel and refund of a Rs 1 puja: full refund, 75 paise refund, and the 24 hour rule

Roles involved	Devotee (A), Admin (B), Pandit (C), Temple manager (D).
Testable today?	YES after Part 1
Purpose	Prove that a real refund works end to end and see what the gateway does with a Rs 0.75 refund.
Before you start	Make three separate Rs 1 bookings of Ganesh Puja: R1 = slot more than 48 hours from now; R2 = slot between 24 and 48 hours from now; R3 = slot inside 24 hours. Pay each Rs 1 (F1 steps 2-3).
Data to create	Three booking numbers.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F3.01 ★	**Devotee**	R1: open the booking. Read the refund text, then Cancel (the page asks "Cancel this booking? This cannot be undone.").	Text says full refund (Rs 1.00). After confirming: status Cancelled and a refund requested (no processing time promised).	Admin /admin/refunds: R1 listed under "Awaiting a refund decision" with policy refund Rs 1.00. Pandit/Temple: booking cancelled.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
F3.02 ★	**Admin**	Approve the refund (policy amount). If the system already refunded it automatically (it runs about 1 hour after cancelling), note the time.	R1 moves to "Already refunded". Amount Rs 1.00.	Devotee: status Refunded, Rs 1.00; a refund shows in the UPI/bank app (timing depends on the bank). Owner: Razorpay shows a refund of Rs 1.00 (100 paise). Pandit: no earning; Temple: share reversed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
F3.03 ★	**Devotee**	R2: Cancel.	Text says 75% refund = Rs 0.75.	Admin queue shows policy refund Rs 0.75.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
F3.04 ★	**Admin**	Approve R2 (policy amount) and read the result carefully.	Either the refund of Rs 0.75 (75 paise) succeeds, or the gateway refuses it and the screen shows a failure; the booking then stays as it was and can be retried. Copy the exact message and the reason in the API log/Razorpay dashboard.	Devotee: Refunded Rs 0.75, or still Cancelled with refund pending. Pandit commission: scaled down (Rs 0.80 becomes Rs 0.20 after a 75% refund).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
F3.05 ★	**Devotee**	R3: try to Cancel and try "Request refund".	Refused: "Cancellation is not allowed within 24 hours of the scheduled puja time." and "Refund requests are not allowed within 24 hours of scheduled time."	No change on any side.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____
F3.06	**Admin**	Take another cancelled Rs 1 booking and Reject the refund with a reason, then check the devotee screen.	Reject needs a reason; booking stays Cancelled and visible in the queue.	Devotee sees that the refund was declined and how to reach support.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #____

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
F3.U01	**Approve twice**	Double-click Approve, or approve from two tabs.	Exactly one refund in Razorpay; no second refund row.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F3.U02	**Cancel an unpaid booking**	Create a booking, do not pay, cancel it.	Free cancel; "Nothing was charged"; no refund row.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F3.U03	**Partial refund by admin**	Admin approves a partial amount (for example Rs 0.50).	Payment shows partially refunded; booking stays Cancelled; commission and temple share scale down proportionally (no zero or negative rows).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F3.U04	**Refund after payout request**	Pandit has already requested payout for a booking; it is then refunded.	No double payment; admin sees a clear message.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F4 Astrology consultation: pay Rs 1 for 1 minute, session, chat, completion, rating, refund

Roles involved	Devotee (A), Astrologer (B), Admin (C).
Testable today?	YES after Part 1
Purpose	A paid consultation from booking to the astrologer's Rs 0.80 earning, and the refund rule.
Before you start	Astrologer online at Rs 1 per minute (already set). Devotee is a listed QA payer (consultations of 1 minute are allowed only for listed accounts).
Data to create	Test Jyotish Acharya, 1 minute, no scheduled slot (instant), then one with a slot.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F4.01 ★	**Devotee**	/astrology > the test astrologer > Book. Choose 1 minute and no slot.	Price Rs 1 x 1 = Rs 1.00; QA pill visible; button "Pay Rs 1 & Start Consultation".	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F4.02 ★	**Devotee**	[Rs 1] Pay.	Success "Consultation Booked!"; a chat thread with the astrologer opens; receipt email.	Astrologer: notification and the booking under Consultations (Confirmed). Admin /admin/consultations: Confirmed (joinable). Owner: Razorpay Rs 1.00.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F4.03 ★	**Both**	Both press Join; talk in the meeting link; also chat in the thread.	Join works; messages arrive.	Both sides see the same conversation.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F4.04 ★	**Astrologer**	Press End/Complete.	Completed.	Devotee: "Consultation Completed ... session closed". Astrologer earnings: Rs 0.80 (Upcoming becomes Ready).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F4.05	**Devotee**	After the call rate the astrologer in the chat (5 stars).	Saved.	Astrologer sees the rating in the chat; the public profile rating may not change (known gap).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F4.06 ★	**Devotee**	Book another 1-minute consultation, pay Rs 1, then Cancel within 24 hours of paying (no slot booked).	Refund eligible: "Cancellation accepted. Refund will be processed within 5-7 business days."	Astrologer commission reversed; Razorpay refund Rs 1.00; admin sees it (admin consultations can End but not refund: if stuck, the engineer uses the refund endpoint).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
F4.U01	**Not a listed account**	Try to book 1 minute as a non-listed account (do not pay).	5-minute and Rs 50 minimums apply: "Minimum consultation amount is Rs 50."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F4.U02	**Book yourself**	Astrologer books own profile.	"You cannot book a consultation with yourself."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F4.U03	**Slot outside availability**	Book a slot on a switched-off day.	"... is not taking bookings for that time. Their hours: ..."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F4.U04	**Payment under review**	Pay and immediately close the browser; reopen My Consultations.	Confirmed, or "Payment Under Review ... do not pay again". Never two charges.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F5 Wellness session: enrol for Rs 1, room link, attendance, earnings, cancellations and refunds

Roles involved	Devotee (A), Wellness instructor (B), Admin (C).
Testable today?	YES after Part 1
Purpose	A paid class from enrolment to the instructor's Rs 0.80 earning, plus both cancellation directions.
Before you start	QA-Rs1 Yoga (3 days ahead) and QA-Rs1 Meditation (10 days ahead) exist. For the attendance step the instructor creates one more session starting about 1-2 hours from now.
Data to create	Three enrolments over the whole flow.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F5.01 ★	**Devotee**	/wellness/classes > QA-Rs1 Yoga > Enrol.	Price Rs 1; QA pill; seats "N spots left".	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F5.02 ★	**Devotee**	[Rs 1] Pay.	Enrolled; receipt email "Darshya payment receipt - QA-Rs1 Yoga"; the class shows under My classes.	Instructor: "View roster" shows the student; count 1/10; earning Rs 0.80 pending. Owner: Razorpay Rs 1.00.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F5.03 ★	**Instructor**	Set the live-class room link (a valid https link).	Saved.	Devotee: "Join the live room" appears on the class page (only because you are paid).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F5.04 ★	**Devotee**	Cancel the enrolment (more than 48 hours before the start).	Cancelled; refund Rs 1.00 (100%).	Instructor: roster back to 0; earning reversed. Razorpay refund Rs 1.00.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F5.05	**Instructor**	Create "QA-Rs1 Yoga now" starting in about 1-2 hours. Devotee enrols and pays Rs 1.	Created, enrolled.	Roster shows the student.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F5.06 ★	**Instructor**	After the start time mark the student Attended, then set the session Completed.	Attendance marked; Completed accepted only after the start time.	Devotee: Attended; cannot cancel any more. Instructor earnings Rs 0.80 ready.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F5.07 ★	**Instructor**	Cancel the 10-days-ahead session after a second student paid Rs 1.	Modal "Cancel this session?" with the number of paid learners; confirm.	Student: automatic Rs 1.00 refund, push "Class cancelled" and the email "Class cancelled: ...".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
F5.U01	**Student cancels 24-48 hours before**	Enrol in a session starting 24-48 hours ahead and cancel.	75% = Rs 0.75: same 75 paise gateway question as F3; record the result.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F5.U02	**Student cancels inside 24 hours**	Cancel a paid class starting in under 24 hours.	"Paid classes can be cancelled up to 24 hours before they start."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F5.U03	**Full class**	Fill all seats (capacity 10 is large: ask the instructor to lower it before enrolments, or use the 1-seat session).	"Session is full"; button "Class is full".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F6 Store order: pay Rs 1 online, fulfilment, receipt, cancel and refund, and cash on delivery

Roles involved	Devotee (A), Store owner (B), Admin (C).
Testable today?	YES after Part 1
Purpose	A real online store payment with Rs 0 delivery, the seller's Rs 0.80 earning, the admin-approved refund, and the cash-on-delivery rule.
Before you start	QA-Rs1 Diya, stock 100. Devotee has an Indian address.
Data to create	Two online orders and one cash-on-delivery order.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F6.01 ★	**Devotee**	/store > QA-Rs1 Diya > add 1 to cart > checkout with a sample Indian address (6-digit PIN). Choose Pay online.	Total Rs 1.00: item Rs 1 + delivery Rs 0. QA pill visible.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F6.02 ★	**Devotee**	[Rs 1] Pay.	Order number; status Pending then Paid/Confirmed; receipt email.	Store owner: /store-admin/orders shows the order; stock 99. Owner: Razorpay Rs 1.00.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F6.03 ★	**Store owner**	Move the order Confirmed, Processing, Shipped (tracking QA-TRACK-1), Delivered.	Each step saves.	Devotee /store/orders follows each status; email on Confirmed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F6.04 ★	**Admin**	/admin/revenue: online-paid sales and the seller earning.	Seller earning Rs 0.80.	Seller: revenue shows Rs 1.00 online-paid sales; payout ledger Rs 0.80.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F6.05 ★	**Devotee**	Place a second paid Rs 1 order and cancel it while Pending, Confirmed or Processing.	"Order cancelled. Your refund request has been sent to our team for approval; it is not refunded instantly."	Store owner: Cancelled; stock restored; his pending earning reversed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F6.06 ★	**Admin**	/admin/store-refunds: approve (policy or full).	Refund Rs 1.00 sent.	Devotee: email "A refund of Rs 1 for order ... has been processed (5-7 business days)"; Razorpay refund Rs 1.00.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F6.07 ★	**Devotee**	Place a third order with cash on delivery (no payment).	Order Pending; nothing is charged.	Store owner fulfils it; NO commission and no ledger credit is created for COD (admin revenue shows it separately as cash collected by the seller).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
F6.U01	**Cancel after shipping**	Try to cancel a Shipped and a Delivered order.	"This order has already shipped and can no longer be cancelled." / "...delivered... contact support" (no self-service return).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F6.U02	**Price mismatch**	Seller changes the price while the devotee is at checkout.	"Prices in your cart have changed. Please review your order total and try again." Nothing charged.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F6.U03	**Delivery fee for a non-listed account**	Look at the cart total as a non-listed account (do not pay).	Rs 1 + delivery Rs 49 = Rs 50: proves the waiver is account-specific.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F7 Gaushala donation: pay Rs 1, numbered receipt, manager view, admin transfer

Roles involved	Devotee (A), Gaushala manager (B), Admin (C).
Testable today?	YES after Part 1
Purpose	A real donation with a receipt, visible to the gaushala, and the admin's record of the bank transfer.
Before you start	A gaushala that is Live on Darshya (for example Test Gau Seva Trust Pune; its profile must pass the quality check: real name, 20+ character description, full address).
Data to create	Donation Rs 1; name QA-Tester Sharma; phone 8868912697; PAN left empty (optional below Rs 2,000).

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F7.01 ★	**Devotee**	/gaushala > the gaushala > Donate. Choose "Custom amount" and type 1 (or the Rs 1 chip if shown). Fill name, email, phone.	No "Minimum donation is Rs 101" (that message appears for non-listed accounts). Footer says it is a numbered receipt and proof of donation, not an 80G certificate.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F7.02 ★	**Devotee**	[Rs 1] Pay.	Thanks page and receipt number DR-YYYYMMDD-XXXX; PDF receipt "Darshya-Donation-Receipt-DR-....pdf" by email.	Gaushala: /gaushala-portal/donations lists it (donor, email, phone, masked PAN, Rs 1, status Received, receipt number); totals Rs 1. Owner: Razorpay Rs 1.00.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F7.03	**Gaushala manager**	Search by the donor name; press Export CSV.	Row found; CSV matches.	Devotee: receipt number identical.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F7.04 ★	**Admin**	/admin/gaushala-disbursements: the gaushala shows Rs 1.00 owed. Record a transfer of Rs 1 with reference QA-UTR-001 (this only records it; no money moves unless you also send a real bank transfer).	Recorded; balance Rs 0.00; text explains recording does not move money.	Gaushala: disbursement shows (◆ confirm where).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
F7.U01	**Amount boundaries**	Try 0, 0.50 and a non-listed account at 100.	0 and fractions refused; non-listed accounts see "Minimum donation is Rs 101".	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

ID	Scenario	How to test it (both screens)	Expected result	Result
F7.U02	**Admin transfer errors**	Record Rs 5 (more than owed), the same reference twice, and no reference.	"Only Rs X is owed to this gaushala..."; "A transfer with this reference is already recorded..."; "Enter the gaushala, an amount above zero and the transfer reference (UTR)."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F7.U03	**Gaushala not onboarded**	Donate to a gaushala that fails the quality bar (do not pay).	"This gaushala is not yet onboarded to receive donations through Darshya."	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F7.U04	**Pay twice**	Press Pay twice within 15 minutes with the same amount.	The same pending donation is reused: one order, one charge.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F8 Temple donation: pay Rs 1, receipt, temple settlement

Roles involved	Devotee (A), Temple manager (B), Admin (C).
Testable today?	YES after Part 1
Purpose	The temple side of donations, including the rule that the temple must be verified and have an approved manager.
Before you start	Test Shri Ganesh Mandir Pune is verified and has its manager (already true).
Data to create	Donation Rs 1.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F8.01 ★	**Devotee**	Open the temple page or /donations?causeKind=temple, choose the test temple, amount 1.	Accepted at Rs 1 for a listed account.	None.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F8.02 ★	**Devotee**	[Rs 1] Pay.	Receipt DR-YYYYMMDD-XXXX by email.	Temple: /temple-portal/donations shows Rs 1.00 (Total received Rs 1, donors 1). Owner: Razorpay Rs 1.00.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F8.03 ★	**Admin**	Open the temple settlements page: the temple is owed Rs 1.00 from donations. Record a donation transfer of Rs 1 with reference QA-UTR-002.	Recorded; owed amount Rs 0.	Temple: payouts/donations pages show the transfer.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
F8.U01	**Unverified temple**	Ask admin to un-verify a QA temple and try to donate (do not pay).	Refused: temple not onboarded (a temple needs to be verified AND have an approved manager).	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F8.U02	**Transfer larger than owed**	Record Rs 5.	Refused: exceeds balance.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F9 Provider payout request: earn Rs 0.80, KYC, request, admin pays, provider sees Paid out

Roles involved	Provider (pandit, astrologer, instructor or store owner) (A), Admin (B).
Testable today?	YES after at least one of F1, F4, F5 or F6 has completed
Purpose	The money chain for the provider: earnings held until the work is done and proved, then a payout request, then the admin's recorded transfer.
Before you start	Provider earning Rs 0.80 is "Ready to withdraw". The provider has submitted KYC with FAKE details (Aadhaar 12 digits, PAN AAAAA9999A, bank account 9-18 digits, IFSC like HDFC0123456) and admin has verified it.
Data to create	Reference QA-UTR-101 for the payout.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F9.01 ★	**Provider**	Open Payouts (pandit: /priest/payouts, others: /payouts). Press Request payout before KYC is verified.	Refused: "Add your bank/UPI details in KYC before requesting a payout." or "Your KYC is pending verification. Payouts unlock once an admin verifies it."	Admin /admin/kyc shows the pending submission.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F9.02 ★	**Admin**	Verify the KYC. Try verifying another with no bank account on file.	Verified; the other: "Cannot verify: this provider has no bank account on file..."	Provider: KYC shows Verified.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F9.03 ★	**Provider**	Request payout for the available Rs 0.80.	Request created; "Requested, awaiting payout" shows Rs 0.80; history lists it.	Admin /admin/payouts: Pending request for Rs 0.80.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F9.04 ★	**Admin**	Complete the request with reference QA-UTR-101 (the real bank transfer is made outside the app; recording it does not move money).	Status Completed; the linked commission is marked paid.	Provider: "Paid out (total)" is Rs 0.80; history Completed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F9.05	**Admin**	On a second Rs 0.80 request press Reject, then another with Fail.	Reject needs a reason; the amount returns to the provider's available balance.	Provider sees the request rejected/failed and can request again.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Unhappy paths and error scenarios

ID	Scenario	How to test it (both screens)	Expected result	Result
F9.U01	**Nothing to withdraw**	Request payout with Rs 0 available.	"No withdrawable balance." and the button is disabled.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F9.U02	**Earnings still held**	Look at a booking that is paid but not yet performed and proved.	Shown as Upcoming (not withdrawable): the pandit's Rs 0.80 only becomes ready after the video is uploaded and the puja completed.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F9.U03	**Double request**	Press Request payout twice.	One request; the second says another request is being created or nothing is left.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F9.U04	**Refunded booking**	Refund a booking whose earning was already requested.	No double payment; admin sees a warning.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

F10 Temple share and settlement of the puja share (Rs 0.05)

Roles involved	Temple manager (A), Admin (B).
Testable today?	YES after F1
Purpose	Check the temple's 5% share of the puja price on a Rs 1 booking and the admin's settlement, which must equal the payable total.
Before you start	F1 finished (video uploaded). Share row is Rs 0.05.
Data to create	Reference QA-UTR-201.

Happy path, step by step (two screens open: actor and counterpart)

ID	Who acts	What to do	Expected: on the actor's screen	Expected: on the OTHER role's screen	Result
F10.01 ★	**Temple manager**	/temple-portal/payouts.	Rs 0.05 under Ready for settlement (it was Upcoming until the video proof). Text: released once the puja is performed and its video proof is uploaded.	Admin: temple settlements list shows the temple with Rs 0.05 payable.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___
F10.02 ★	**Admin**	Record the puja-share settlement of Rs 0.05 with reference QA-UTR-201. Try Rs 0.10 and the same reference twice.	Rs 0.05 recorded; Rs 0.10 refused (amount must equal the payable total); duplicate reference refused.	Temple: Settled (total) Rs 0.05.	☐ PASS ☐ FAIL ☐ PARTIAL ☐ BLOCKED Bug #___

Part 4 Test calendar: what to book when

Some steps only work at certain times, so book in this order. All times are IST. Do the refund bookings FIRST because they need to be 24 to 48 hours and more than 48 hours ahead.

When	Do this	Why
Day 1 morning	F3: book and pay three Rs 1 pujas: R1 with a slot more than 48 hours ahead, R2 with a slot between 24 and 48 hours ahead, R3 with a slot inside 24 hours (add slots at the temple if needed). F5: enrol in QA-Rs1 Yoga (3 days ahead) and a second enrolment in a session 24-48 hours ahead (ask the instructor to create one).	The refund ladder is measured from the slot; R3 proves the 24 hour rule.
Day 1, 3 hours before a slot	F1: add a slot about 3 hours ahead, book, pay, accept. Pandit starts 2 hours before the slot, uploads video, completes after the slot starts.	Start unlocks 2 hours before; Complete is refused before the slot starts.
Day 1 afternoon	F2, F4, F6, F7 and F8 (none of them wait for a time).	Independent of the calendar.
Day 1 evening	F3 approvals (admin), F5 attendance session, F9 payouts (needs completed earnings and verified KYC), F10 settlement.	Needs the earlier steps finished.
Day 2	Finish R2 (75 paise) result, check emails/receipts again, run Part 5 on every receipt, then Part 6 clean-up.	Bank/UPI refunds and some emails arrive later.

Part 5 Receipts, GST and the books

5.1 What each receipt says today

Document	Heading and wording to expect	Number	How the tester gets it
Puja booking, consultation, wellness and store receipt	Heading "DARSHYA RECEIPT". PDF subject "Payment receipt - proof of payment only, not a statutory tax document". Footer: "Amount shown is the full amount charged. No tax was added or collected on it." and "Proof of payment only - no input tax credit." No GSTIN, no tax line, no HSN code.	Booking number BS-YYYYMMDD-XXXXX (order / session id for the others)	Emailed as a PDF after payment ("Darshya payment receipt - ..."). The puja booking page has no download button (◆ confirm whether other pages offer one).
Donation receipt	Heading "OFFICIAL DONATION RECEIPT". Because 80G is not live it says "Proof of donation - not a tax exemption certificate" and that it is not valid for a Section 80G deduction. Amount in words for Rs 1 reads "One Rupee Only".	DR-YYYYMMDD-XXXX	Emailed as "Darshya-Donation-Receipt-DR-....pdf".

5.2 Tester checks on every receipt (write the answers in Part 7)

- Amount equals what you paid, Rs 1.00 (not Rs 1 plus a fee), and the date/time is in IST.
- Names (devotee, puja, temple, session, product, gaushala) are correct and match the screen; Hindi/special characters are not broken.
- The receipt number is the same as the one on the screen and in the admin lists.
- No tax line and no GSTIN appears (expected today); the donation receipt must NOT claim 80G.
- After a refund: record whether a refund note or credit note exists, and the refund amount shown anywhere (devotee screen, email, admin queue).
- Open the PDF on a phone and on a computer; text is not cut off.

5.3 GST and the books (for the owner and the CA)

How GST is handled today and what to do
The business has no GST registration number yet, so the site does not add GST and the receipts are "proof of payment", not tax invoices. That is why the Rs 1 tests show no tax line: do not log this as a bug.
Rs 1 test payments are real transactions: they reach the Razorpay settlement, the payout ledger and the books. Keep this runbook's evidence log and Razorpay payment/refund ids so the CA can mark them as test transactions.
Razorpay's fee on each payment is normally not returned on refunds; its amount is in the Razorpay dashboard. Check one payment and one refund there and note the fee in Part 7.
Once a GSTIN exists, the CA should decide the GST treatment per supply (puja services, astrology, wellness, goods with HSN rates, the platform commission and the Rs 51 platform fee) BEFORE any tax line, GSTIN or "tax invoice" heading is added. Tell the engineer when that is decided; it is a code change, not a setting.
Marriage and home-puja pages show an 18% GST estimate on a quote only; nothing is charged there.

Part 6 Clean-up and switching the test mode off

When	Who	What to do
After the last test	Owner	Render > bhaktisetu-api > Environment: DELETE QA_PAYER_EMAILS (or empty it) and restart. From that moment fees and minimums are normal again for everyone. The yellow pill disappears for the testers.
Same day	Providers (or the owner)	Switch the Rs 1 items off: temple Pujas > deactivate the Rs 1 offerings (or set real prices); astrologer profile rate back to the real rate; delete or cancel the QA-Rs1 wellness sessions; deactivate QA-Rs1 Diya. Otherwise real devotees can buy them: with the list removed they would pay the normal Rs 51 fee on top of Rs 1.
Same day	Admin	Check that every QA refund and payout request is finished or rejected, and that no QA booking is left "Pending payment" or "Waiting for a pandit".
Next day	Owner	Compare the Razorpay dashboard (payments and refunds) with Part 7: every payment id and refund id in the evidence log must exist there with the same amount. Note any difference as an S1.
When finished	Owner	Change or delete the test.admin account. Keep the test accounts for the next round.

Part 7 Evidence log (one row per payment or refund)

Fill one row for every payment and every refund. Keep screenshots named FLOW_step_description.png (for example F1_03_paid-success.png).

Flow / step	Date, time (IST)	Item	Razorpay payment / refund id	Amount shown on screen	Amount in the pop-up / bank	Booking / order / receipt no.	Earning shown to provider	Result	Bug #
F1 pay									
F1 receipt									
F2 pay									
F3 R1 refund									
F3 R2 refund									
F4 pay									
F4 refund									
F5 pay									
F5 refund									
F6 pay									
F6 refund									
F7 pay									
F8 pay									
F9 payout									
F10 settlement									

Sign-off

Item	Tester	Date	Owner sign-off
All flows F1 to F10 attempted; every BLOCKED row explained			
Razorpay dashboard reconciled with Part 7			
QA_PAYER_EMAILS removed and Rs 1 items switched off			
Receipts and GST findings sent to the CA
