BHAKTISETU

Devotional Technology Company

India’s Unified Digital Platform for Devotion

Connecting faith beyond temple walls

ATISHEY JAIN (FOUNDER)

BUILDING FAITH TECH INFRASTRUCTURE

wardiere.inc

The Problem

INDIA IS DEEPLY SPIRITUAL BUT ACCESS IS FRAGMENTED AND UNEQUAL

- Physical temple visits require time, travel, and long queues
- Working professionals and NRIs are disconnected from daily rituals
- Women often face restrictions during certain periods
- Elderly devotees struggle with mobility
- Spiritual services lack trust, verification, and consistency

Faith is strong. Access is broken.

THE OPPORTUNITY

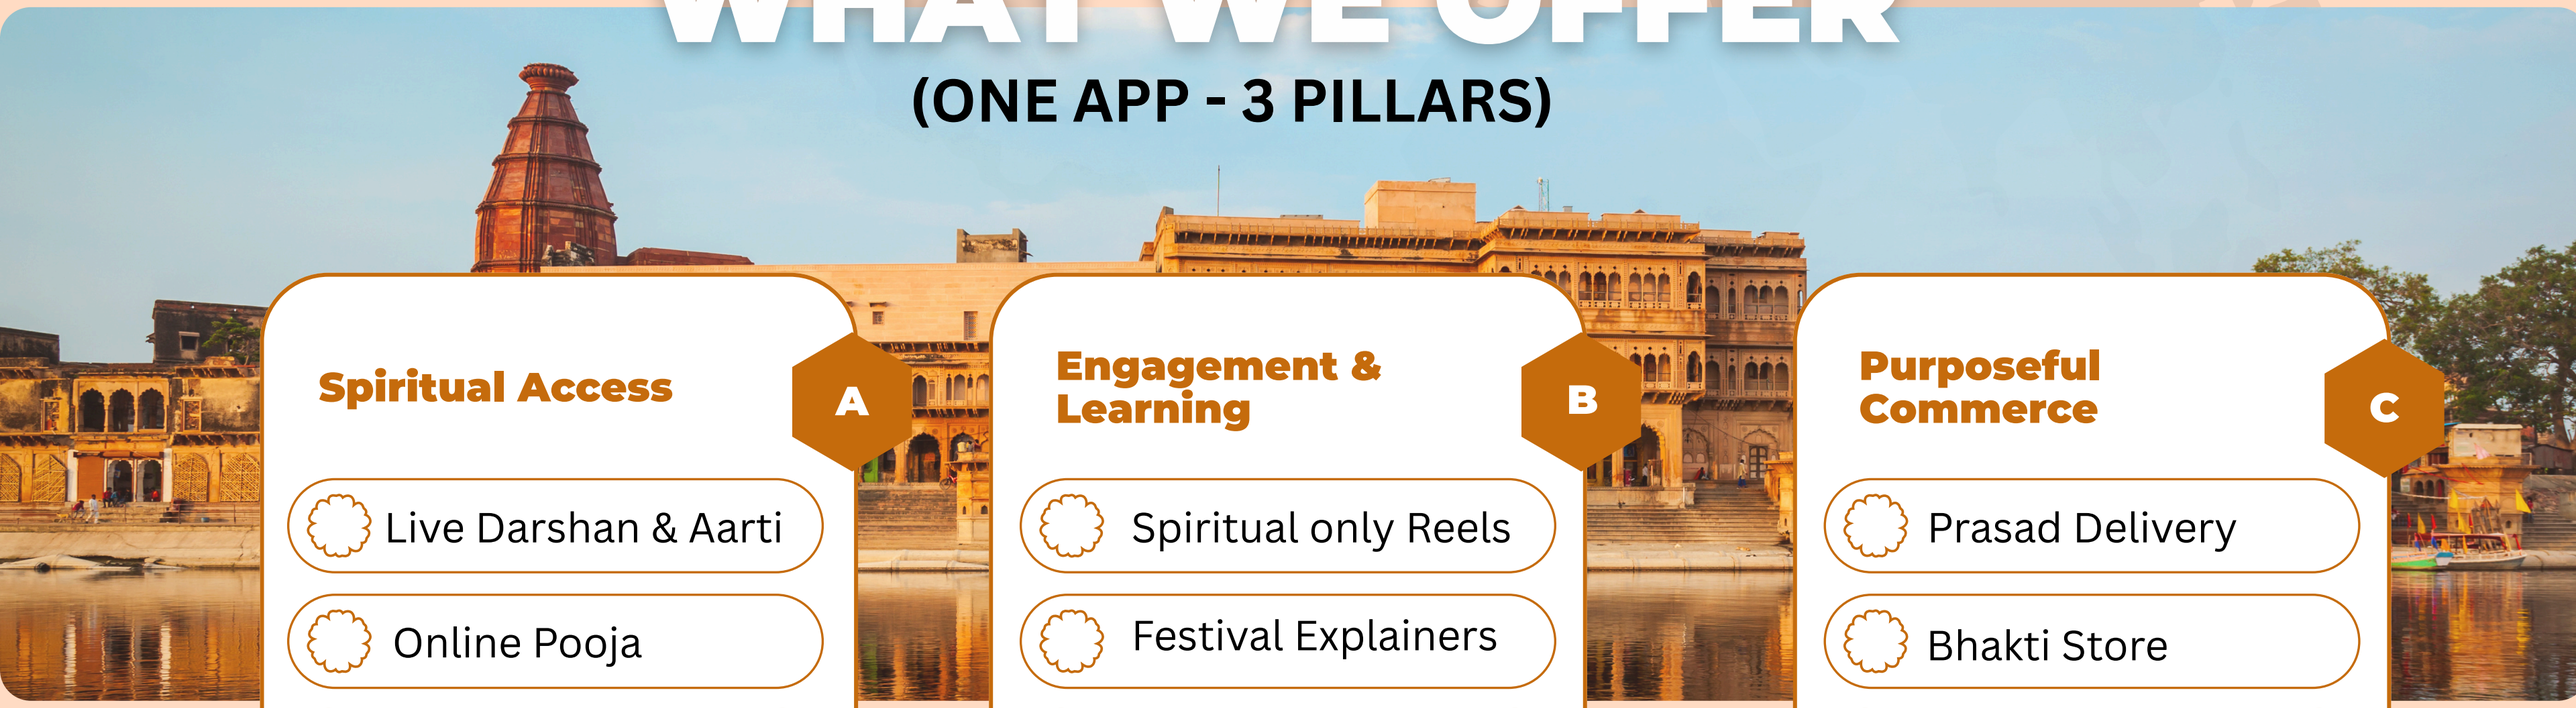
DEVOTION IS A DAILY HABIT BUT THERE IS NO TRUSTED DIGITAL INFRASTRUCTURE

- Millions seek darshan, pooja, and seva regularly
- Digital adoption is mainstream across all age groups
- Post COVID, remote rituals and live darshan are socially accepted
- No single platform offers end-to-end spiritual services with trust and proof

If food, health, and education went digital - devotion is next

WHAT WE OFFER

(ONE APP - 3 PILLARS)



Spiritual Access

A

- Live Darshan & Aarti
- Online Pooja
- Remote participation

Engagement & Learning

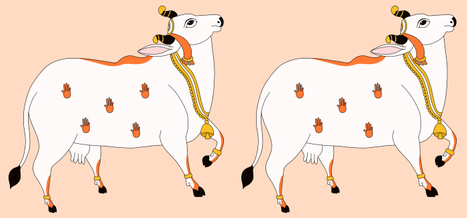
B

- Spiritual only Reels
- Festival Explainers
- Spiritual Education

Purposeful Commerce

C

- Prasad Delivery
- Bhakti Store
- Gaushala (Cow Seva)



SOLUTION

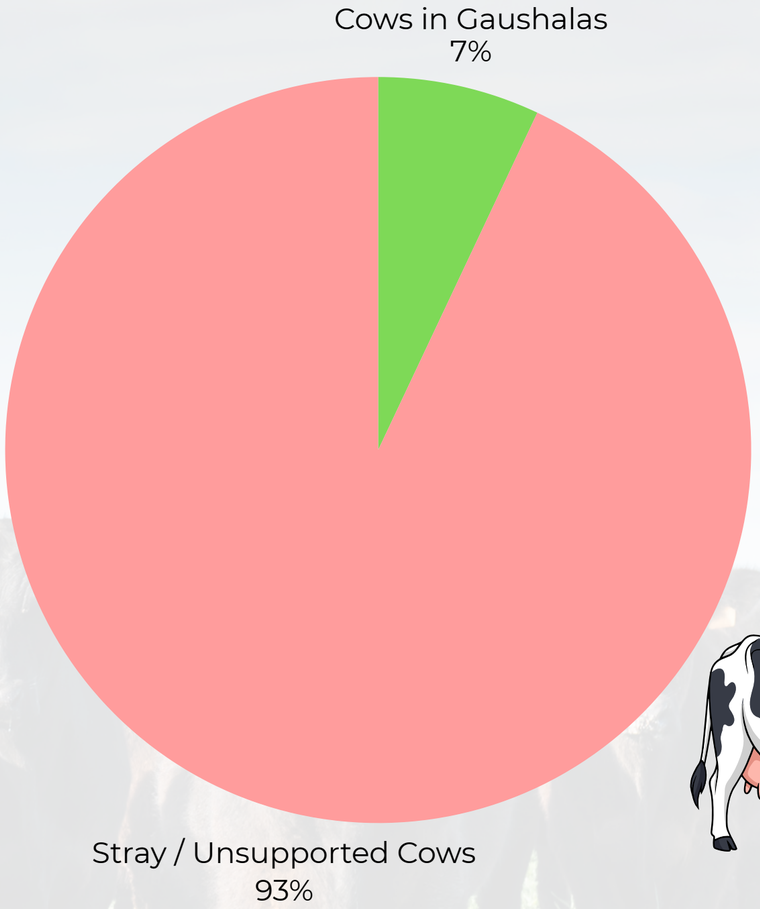
App that brings temples, priests, and devotees together

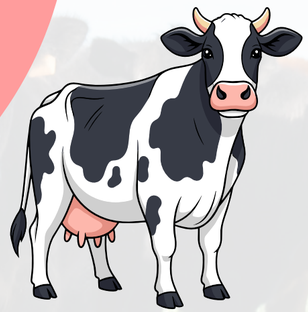
- Attend live darshan & aarti from verified temples
- Book poojas and sevas remotely
- Receive video proof of rituals
- Access spiritual content daily
- Participate in purpose driven spiritual commerce

Gaushalas & Cattle in India

7,600+ gaushalas | 5.3M+ stray cows

- 7,676 gaushalas operate in India, providing protective shelter for cows. Arihanta Institute
- Government data shows 4,05,115 cows are currently sheltered across these gaushalas. Press Information Bu
- Independent estimates suggest 5.3 million+ stray cattle roam without care. MDPI
- The total cattle population in India is 19.3 crore, highlighting massive scale and need. Kisantak





Less than 10% of cows in India receive structured care through gaushalas highlighting a large, underserved opportunity for transparent, digital enablement.

TARGET USERS

PRIMARY USERS

- Working professionals (25–45)
- NRIs
- Women devotees seeking alternative access
- Elderly parents (booked by family members)

SUPPLY PARTNERS

- Verified priests
- Temples
- Gaushalas & spiritual institutions

BUSINESS MODEL

Multiple revenue streams with high repeat usage

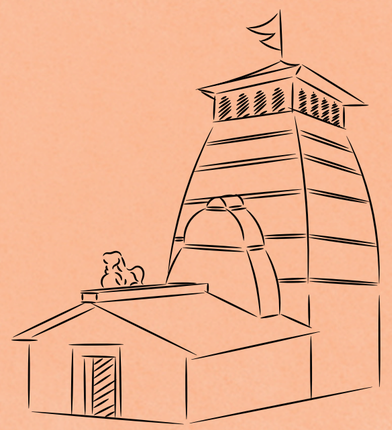
Commission on pooja & seva bookings (15–25%)

Bhakti store marketplace margins

Subscription for premium live darshan (NRIs)

Platform fee on gaushala contributions

Margins on prasad delivery



GO TO MARKET STRATEGY

1. Phase 1: Start with 1 state and a small group of trusted priests
2. Festival-led launches drive high intent user acquisition
3. Organic spiritual content (reels & darshan clips) for daily engagement
4. Family driven referrals and WhatsApp sharing
5. NRI focused subscriptions for high LTV growth
6. Expand state by state through a trust-led platform flywheel

Milestone Planning Roadmap

Launch MVP & establish trust

MVP launch • Live Darshan • Online Pooja • Priest verification • 1-state launch

Monetisation

Prasad delivery • Bhakti store • Nationwide expansion • Streaming infra • Personalisation

Platform Scale

Spiritual education • Subscriptions • Temple APIs • Global NRI rollout • Partnerships

Engagement

Spiritual reels • Festival offerings • 3–5 state expansion • Cow seva • NRI subscriptions

BUILDING INDIA'S DIGITAL INFRASTRUCTURE FOR DEVOTION.

WHY CHOOSE US?
